

# RMR CUT SLIDE FOR GLOCK® 19 GEN 4 - BROWNELLS BRN RMR SLIDE FOR GEN 4 GLOCK 19, W/WINDOW, BLACK NITRIDE

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

## "Plug-n-Play" Optic Mount, Plus a Long List of Performance Features

Glock® pistols are used by individuals and agencies all over the world due to their reliable performance under pressure and in difficult conditions. The Brownells RMR Slide for Glock 19® Gen4 further improves the shooter's ability to operate the slide and aim accurately under those conditions. It features distinctive, wraparound front cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. And we'll be honest: the serrations just look cool, too! The RMR Slide for Glock 19® Gen4 has a built-in mount for the popular Trijicon RMR red dot sight and certain Holosun sights (see list below), enabling shooters to get on-target faster and more easily than they can with standard pistol sights. But don't worry - it includes factory front and rear sight cuts for backup "iron" sights. (With an RMR installed, you will need to install suppressor-height iron sights for proper co-witnessing.) You can get your RMR Slide with a "window" cutout on top between the front serrations (so they don't wrap on this one) that enhances airflow to keep the barrel cooler - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or fluting, spirals, "flames," or another unique exterior pattern, the window helps your gun stand out from the sea of matte black on the firing line. Fits Gen4 Glock® 19 pistols & clones. Machined from 17-4 stainless steel. Window & Solid top models to choose from. Pre-cut Trijicon RMR red dot sight mounting slot (screws included). Also accepts Holosun HE508T, HS507C & HS407C red dots. Each RMR Slide for Gen4 Glock® 19 starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll fit factory frames and accept factory or aftermarket barrels and Gen4 internal parts. The tough, non-reflective, Black Nitride finish resists surface scuffs and scratches. An RMR slide is an excellent upgrade for transforming your Glock® 19 from an excellent off-the-shelf pistol into to the best handgun you've ever shot! Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335

# Safety Instruction Guide for RMR CUT SLIDE FOR GLOCK® 19 GEN 4

## Introduction

Thank you for choosing the RMR Cut Slide for Glock® 19 Gen 4. This guide provides essential safety instructions and guidelines to ensure the safe use and installation of your product. Please read this document carefully before using the slide to enhance your shooting experience while ensuring safety.

## General Safety Guidelines

- Ensure that you are familiar with the operation of your Glock® 19 before using the RMR Cut Slide.
- Always treat your firearm as if it is loaded, even if you believe it is not.
- Store your firearm and accessories in a secure location, out of reach of children and unauthorized users.
- Always wear appropriate eye and ear protection when shooting.
- Be aware of your surroundings and ensure that you have a clear and safe shooting area.
- Regularly inspect your firearm and accessories for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearms and accessories.

## Specific Safety Precautions for Use

- Only use the RMR Cut Slide with Glock® 19 Gen 4 pistols and compatible clones.
- Ensure that the RMR slide is properly installed and secured to the firearm before use.
- Do not attempt to modify the RMR Cut Slide or any components associated with it, as this may lead to safety hazards.
- If you experience any malfunctions or issues while using the slide, cease use immediately and consult a qualified gunsmith.
- Use only factory or compatible aftermarket barrels and parts designed for Glock® 19 Gen 4 to ensure proper function and safety.
- When using an RMR sight, ensure that it is properly mounted and adjusted for your shooting needs.
- Be cautious when cleaning or maintaining your firearm, especially around the slide and sighting systems.

## Instructions for Installation and Usage

### 1. Installation of the RMR Cut Slide:

- Ensure that your firearm is unloaded and the magazine is removed.
- Remove the existing slide from your Glock® 19 Gen 4 by following the manufacturer's instructions.
- Align the RMR Cut Slide with the frame of your Glock® 19 and carefully slide it into place.
- Secure the slide using the provided screws for the Trijicon RMR red dot sight mounting slot.
- If applicable, install suppressorheight iron sights for proper cowitnessing with the RMR sight.
- Check that all components are securely fastened and that the slide operates smoothly.

### 2. Using the RMR Cut Slide:

- Familiarize yourself with the wraparound front cocking serrations for chamber checks and clearing jams.
- Practice using the RMR sight for aiming and target acquisition in a safe environment.
- Regularly check the sighting system to ensure it is functioning correctly.

### 3. Maintenance:

- Clean your RMR Cut Slide regularly to prevent buildup of debris and ensure optimal performance.

- Inspect the slide and RMR sight for any signs of wear or damage after each use.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local recycling regulations.
- If you need to dispose of the RMR Cut Slide, check with local authorities for proper disposal methods for firearm accessories.
- Do not dispose of the slide in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the RMR Cut Slide for Glock® 19 Gen 4, please refer to the manufacturer's website or customer service resources for assistance.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your RMR Cut Slide for Glock® 19 Gen 4. Always prioritize safety and responsible firearm handling.
