[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

## "Plug-n-Play" Optic Mount, Plus a Long List of Performance Features

Glock® pistols are used by individuals and agencies all over the world due to their reliable performance under pressure and in difficult conditions. The Brownells RMR Slide for Glock 19® Gen4 further improves the shooter's ability to operate the slide and aim accurately under those conditions. It features distinctive, wraparound front cocking serrations that aid in manipulating the slide to check the chamber or clear a jam. And we'll be honest: the serrations just look cool, too! The RMR Slide for Glock 19® Gen4 has a built-in mount for the popular Trijicon RMR red dot sight and certain Holosun sights (see list below), enabling shooters to get on-target faster and more easily than they can with standard pistol sights. But don't worry - it includes factory front and rear sight cuts for backup "iron" sights. (With an RMR installed, you will need to install suppressor-height iron sights for proper co-witnessing.) You can get your RMR Slide with a "window" cutout on top between the front serrations (so they don't wrap on this one) that enhances airflow to keep the barrel cooler - ideal for hard-working action competition pistols. Plus, if you have an upgraded barrel with a contrasting finish or fluting, spirals, "flames," or another unique exterior pattern, the window helps your gun stand out from the sea of matte black on the firing line. Fits Gen4 Glock® 19 pistols & clones Machined from 17-4 stainless steel billet Window & Solid top models to choose from Pre-cut Trijicon RMR red dot sight mounting slot (screws included) Also accepts Holosun HE508T, HS507C & HS407C red dots Each RMR Slide for Gen4 Glock® 19 starts life as a billet of 17-4 stainless steel that is machined to Glock® factory specifications inside, so it'll fit factory frames and accept factory or aftermarket barrels and Gen4 internal parts. The tough, non-reflective, Black Nitride finish resists surface scuffs and scratches. An RMR slide is an excellent upgrade for transforming your Glock® 19 from an excellent off-the-shelf pistol into to the best handgun you've ever shot!

Brownells Gun Tech™ Note: Channel liner required for these slides. Channel liner is a press fit and requires a tool to install. We recommend #777-100-017. Includes patented optic cut technology pioneered by ZEV Technologies. Patent No. RE47335

## Attributes

# Safety Instruction Guide for RMR Cut Slide for Glock® 19 Gen 4

## Introduction

Thank you for choosing the RMR Cut Slide for Glock® 19 Gen 4. This product is designed to enhance your shooting experience while ensuring safety during use. Please read and follow these safety instructions carefully to ensure your safety and the proper functioning of the slide.

## General Safety Guidelines

- Ensure that the slide is compatible with your specific Glock® model before installation.
- Always handle firearms with care and treat every weapon as if it is loaded.
- Keep your firearm pointed in a safe direction at all times.
- Store your firearm in a secure location, out of reach of children and unauthorized users.
- Regularly check for updates regarding product recalls and safety notices through the EU Safety Gate platform.
- Report any unsafe products or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using your firearm.
- Ensure the firearm is unloaded before installing or removing the slide.
- Check that the slide is properly installed and secured before use.
- Do not modify the slide or firearm in any way that could compromise safety.
- Use only factory recommended parts and accessories with your Glock® 19 Gen 4.
- Be aware of your surroundings and ensure a safe shooting environment.

## Instructions for Installation and Usage

### 1. Installation of the RMR Slide:

- Ensure the firearm is unloaded.
- Remove the factory slide from the Glock® 19 Gen 4 by following the manufacturer's instructions.
- Align the RMR Slide with the frame and gently slide it into place.
- Secure the slide using the provided screws, ensuring they are tightened to the manufacturer's specifications.
- Check that the slide operates smoothly and freely.

### 2. Mounting the RMR Sight:

- Follow the manufacturer's instructions for mounting the Trijicon RMR or compatible Holosun sights.
- Ensure that the sight is securely attached and properly zeroed before use.

### 3. Usage:

- Familiarize yourself with the operation of the slide and the firearm before use.
- Conduct a function check to ensure everything is working correctly.
- Always aim safely and be aware of your target and what lies beyond it.

## **Disposal Instructions**

- Dispose of the RMR Cut Slide responsibly at the end of its life cycle.
- Follow local regulations regarding the disposal of firearm components.
- If you are unsure about disposal methods, consult local authorities for guidance.

## **Contact Information for Further Support**

For any inquiries regarding safety or product information, please refer to the EU contact point provided by the manufacturer or consult local authorities.

Thank you for prioritizing safety and responsibility in your shooting practices. Enjoy your enhanced shooting experience with the RMR Cut Slide for Glock® 19 Gen 4!
