

BLANK SLIDE FOR GEN 3 GLOCK® 34 - BROWNELLS BLANK SLIDE FOR GEN 3 GLOCK® 34

[Handgun Parts](#) > [Slide Parts](#) > [Slides](#)

Unfinished Exterior - Ready To Customize To Suit Your (or Your Customer's) Needs

The Brownells Blank Slide for Glock® 34 comes in unfinished, "in-the-white" stainless steel, without exterior features, so you can customize it exactly the way you want it. Machine in cocking serrations, weight-reducing "windows," an optic mounting slot, or other cosmetic features to make your pistol unique. (Yes, you do need to bring machining skills to the table!) The good news is the "grunt work" is already done for you. The inside of our Blank Slide for Glock® 34 is machined to final dimensions, ready for your choice of barrel and other internal components (see Gun Tech Note below). Outside, the sight cuts are also done for you, so the vast array of aftermarket sights that fit the factory slide will fit this one. Fits factory Gen3 Glock® 17 or 34 frame & Polymer80 PF940 frame Machined from firearm-grade 17-4 stainless steel Internals finished to final factory dimensions Comes "in-the-white" so you can apply the finish of your choice Includes Glock factory front and rear sight dovetails Our Brownells Blank Slide for Glock® 34 comes in unfinished, "in-the-white" stainless steel. When you're done machining the exterior, you can apply the type of finish - and color scheme - you want. Sometimes "off the shelf" works, sometimes you want to do it your way. When you're ready to build your own target pistol Glock® 34 Dream Gun™, reach for a Brownells Blank Slide. Brownells Gun Tech™ Note: Our Blank Slides for Glock® require that a factory channel be installed (available separately). Channel liners are a press fit and require a channel liner installation tool (we sell those, too).

Brownells Blank Slide for Gen 3 Glock® 34 Safety Instruction Guide

Introduction

Thank you for choosing the Brownells Blank Slide for Gen 3 Glock® 34. This product is designed for customization and is intended for use by individuals with appropriate machining skills. Please read this safety instruction guide carefully to ensure safe handling, installation, and usage of the product.

General Safety Guidelines

- Always handle firearms and firearm components with care and respect.
- Ensure that the Blank Slide is used only with compatible Glock® models (Gen 3 Glock® 17 or 34).
- Verify that all components are free from defects before use.
- Always wear appropriate safety gear, including eye protection, when machining or handling firearm components.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure you have the necessary machining skills before attempting to alter the Blank Slide.
- Use proper tools and equipment when machining the Blank Slide.
- Avoid using excessive force during machining to prevent damage to the product.
- Make sure the work area is clean and welllit to prevent accidents.
- Always ensure that the firearm is unloaded before installing or modifying any components.
- Do not attempt to use the Blank Slide without completing the necessary machining processes.

Instructions for Installation and Usage

1. Preparation:

- Before starting, ensure you have the following tools:
 - Channel liner installation tool (available separately).
 - Machining tools suitable for your desired modifications.
- Review the compatibility of the Blank Slide with your Glock® model.

2. Machining the Blank Slide:

- Carefully plan the modifications you wish to make, such as cocking serrations or optic mounting slots.
- Follow all safety precautions while machining. Wear safety goggles and ensure the area is secure.
- Use precise measurements to ensure that all cuts and modifications are accurate.

3. Installing the Channel:

- A factory channel must be installed before use.
- Use the channel liner installation tool to pressfit the channel liners into place securely.
- Ensure that the channel is properly aligned and fitted.

4. Final Assembly:

- Once machining and installation are complete, assemble the Blank Slide with your choice of barrel and internal components.
- Ensure that all components are compatible and properly fitted.

5. Applying Finish:

- After completing all machining, you can apply the finish of your choice to the exterior of the Blank Slide.
- Follow the manufacturer's instructions for the finishing products used.

Disposal Instructions

- Dispose of any waste materials generated during the machining process in accordance with local regulations.
- If the Blank Slide becomes damaged beyond repair, dispose of it in a manner that prevents unauthorized use.

Contact Information for Further Support

For any questions or concerns regarding the Brownells Blank Slide for Gen 3 Glock® 34, please refer to the manufacturer's website or contact their support team directly.

Thank you for your attention to these safety guidelines. Enjoy customizing your Brownells Blank Slide, and always prioritize safety during the process.
