## Maximize the Performance of Your Glock 48? With an Upgraded "Top Half"

With a Brownells Front Cut Slide for the Glock® 48 installed, you'll find your Glock® becomes easier to operate without any change in its reliability. The G48 greatest strength is that it lets you carry a thin pistol with 10 rounds of centerfire punch in an compact EDC package. As a bonus this slide will also fit on you G43x and 43 with the correct G48 barrel, converting your ultra compact to a ultra thin long slide version. Our Front Cut Slide gives you more grasping surface on your Glock® 48 by adding deep-cut serrations at the front of the slide. This is a big help when making a quick press check of the chamber. Both the front and rear serrations have crisp 90-degree edges that give you excellent purchase, and they're cut to the same depth as the factory grooves - so there's no compromise of the slide's overall strength. We also offer the Front Cut Slide for Glock® 48 in a "window" configuration with a window cut in the top of the slide ahead of the ejection port. This aids in barrel cooling, slightly reduces the weight of the slide for faster cycling, and...well, it just looks cool, too. Machined from heat-treated & hardened 17-4 stainless steel billet Hard, wear-resistant matte black Nitride finish Internal dimensions identical to factory slide Factory rear sight dovetail & front sight tenon cut Slide only - no internal parts (see Gun Tech Note below) The Front Cut Slide for Glock® 48 comes with a factory rear sight dovetail and slot for the front sight tenon. It will accept both factory "iron" (actually, plastic) sights and any aftermarket sights that fit the factory cuts. Upgrade the slide on your pocket Glock today for immediate improvement in its functionality and performance - and your shooting enjoyment. Brownells Gun Tech™ Note: The Front Cut Slide for Glock® 48 consists of the bare slide only. You will need to retain your pistol's existing barrel (or an aftermarket upgrade) and recoil guide / spring assembly, firing pin assembly, extractor, extractor depressor plunger & spring assembly, firing pin safety & spring, and your back plate. The G48 slide does not require a firing pin channel liner.

# Safety Instruction Guide for Brownells Front Cut Slide for Glock® 48

## Introduction

Thank you for choosing the Brownells Front Cut Slide for Glock® 48. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read and understand this manual before installation and use.

## General Safety Guidelines

- Ensure that the firearm is unloaded before installing or handling the slide.
- Always handle firearms with care and in a safe manner.
- Keep the product out of reach of children and unauthorized users.
- Be aware of your surroundings when using firearms.
- Regularly inspect the slide and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm use and modifications.

## Specific Safety Precautions for Use

- Use only compatible Glock® parts when installing this slide to ensure safety and functionality.
- Do not use the slide with any ammunition other than the specified 9 mm Luger.
- Avoid using the slide in wet or slippery conditions to maintain grip and control.
- Ensure that the slide is properly secured before use to prevent accidents.
- Always wear appropriate eye and ear protection when using firearms.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your Glock® 48 is unloaded and clear of any ammunition.
- Gather necessary tools for installation, including a punch tool for removing the rear sight.

### 2. Removing the Existing Slide:

- Disassemble your Glock® 48 according to the manufacturer's instructions.
- Remove the existing slide by pulling the takedown lever and sliding the slide off the frame.

### 3. Installing the Front Cut Slide:

- Align the Brownells Front Cut Slide with the frame of your Glock® 48.
- Slide the new slide onto the frame until it is fully seated.
- Ensure that the rear sight dovetail is aligned properly.

### 4. Reinstalling Internal Parts:

- Retain your existing barrel and recoil guide/spring assembly.
- Install the firing pin assembly, extractor, extractor depressor plunger & spring assembly, and firing pin safety & spring.
- Reattach the back plate.

### 5. Final Checks:

- Inspect the installation to ensure all parts are secure and correctly installed.

- Perform a function check to ensure that the slide operates smoothly.

## 6. Usage:

- After installation, familiarize yourself with the operation of the new slide.
- Conduct practice sessions to ensure comfortable handling and operation.

## Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the slide becomes damaged beyond repair, consult local regulations for proper disposal of firearm components.

## Contact Information for Further Support

For any questions or concerns regarding the Brownells Front Cut Slide for Glock® 48, please refer to the manufacturer's website or contact their support team for assistance.

## Conclusion

Your safety and enjoyment are our top priorities. By following these guidelines, you can ensure a safe and effective experience with your Brownells Front Cut Slide for Glock® 48. Always prioritize safety and responsible firearm handling.
