## Sets You Up To Install a Red Dot Sight on Your Glock 48?

Whether or not you're running a Glock G48, there's no doubt that you could benefit from adding a red-dot sight to your self-defense system. Dot sights have been proven to speed up target acquisition and follow-up shots, and the bright aiming point makes you much more capable in low-light situations.

There's just one problem: Glock doesn't provide a milled slide on these platforms. Luckily, we've got the solution in this RMRcc Cut Slide designed for use on the G48. As an added bonus, you can make a G43 into a longslide model by grabbing this slide and a compatible barrel. Based on our ""Front Cut"" slide we designed originally for the Glock G48, this RMRcc Cut Slide includes serrations at the front and rear of the slide for easy manipulation, which is a big help when you're fighting against the stiff recoil spring inside this compact 9mm. Just behind the ejection port, though, you'll see a cutout that's tailor-made to accept the Trijicon RMRcc red-dot sight. When you're not using a red-dot sight, the slide includes a cover plate with a dovetail designed to accept all standard Glock rear sights, and a slot at the front of the slide is compatible with Glock's front-sight tenon. Each Brownells RMRcc Cut Slide is machined from 17-4 stainless steel billet and treated with a matte-black Nitride finish. Internally, the dimensions are identical to Glock's OEM slides, so you can put factory Glock parts into the slide in order to build your complete gun. Note: this RMRcc Cut Slide includes the slide only. Consumers are responsible for either retaining the factory barrel and slide internals or finding new components to finish the slide. This slide does not require the use of a firing-pin channel liner.

## Attributes

- Name: [BROWNEILLS RMRCC SLIDE FOR GLOCK 48 SS NITRIDE 9MM](#)
- Manufacturer: [BROWNEILLS](#)
- Product no.: 078000634

# RMRCC Cut Slide for Glock® 48 Safety Instruction Guide

## Introduction

Thank you for choosing the RMRCC Cut Slide for Glock® 48. This product is designed to enhance your firearm's functionality by allowing for the attachment of a reddot sight. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that you are familiar with the operation of your Glock® 48 before using the RMRCC Cut Slide.
- Always handle firearms with care and keep them pointed in a safe direction.
- Store your firearm and its components securely, away from children and unauthorized users.
- Be aware of your local laws and regulations regarding firearm modifications and usage.
- Regularly inspect the RMRCC Cut Slide for any signs of wear or damage before use.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Improper installation may lead to malfunction or injury.
- Use of incompatible parts can compromise the safety of the firearm.
- Failure to follow instructions may result in accidents or damage to the firearm.

### • Avoiding Hazards:

- Ensure that the slide is properly fitted and secured to the firearm before use.
- Only use factory Glock parts for internal components to maintain safety standards.
- Do not attempt to modify the slide or its components beyond the manufacturer's specifications.

### • Age Specific Warnings:

- This product is intended for use by individuals who are legally allowed to possess and operate firearms.
- Keep this product out of reach of children and individuals who may not understand its risks.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory slide from the Glock® 48 by following the manufacturer's instructions.
- Install the RMRCC Cut Slide by aligning it with the frame and securing it in place.
- Confirm that all components are properly fitted and that the slide moves smoothly.

### 2. Usage:

- Familiarize yourself with the operation of the reddot sight before using it in live conditions.
- Always perform a function check after installation to ensure proper operation.
- Practice using the reddot sight in a controlled environment before engaging in livefire situations.

### 3. Maintenance:

- Regularly clean and lubricate the RMRCC Cut Slide and associated components.
- Inspect the slide for any signs of wear or damage before each use.

## **Disposal Instructions**

- Dispose of the RMRCC Cut Slide in accordance with local regulations regarding firearm components.
- Do not discard the product in regular household waste; instead, consider recycling options or disposal at designated facilities.

## **Contact Information for Further Support**

For safety inquiries or additional support, please refer to the manufacturer's website or contact the designated EUbased support center.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with your RMRCC Cut Slide for Glock® 48. Thank you for your attention to safety and responsible firearm use.
