Safety Instruction Guide for 1911 AUTO OVERSIZED STOCK BUSHINGS & TAP

Introduction

Thank you for choosing the 1911 AUTO OVERSIZED STOCK BUSHINGS & TAP. This product is designed to help you effectively resolve issues with stripped stock bushing holes in your 1911 .45 caliber firearm. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** This product is designed for safe use in accordance with EU regulations. Always follow the guidelines to avoid potential hazards.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices regarding this product. Check the EU's Safety Gate platform for updates.
- **Online Shopping:** If purchased online, ensure that the platform complies with safety requirements.
- **Special Consumer Focus:** This product is intended for adult users. Keep it out of reach of children.
- **EU Contact Point:** For safety inquiries, please refer to the designated EU contact point associated with this product.
- **Rapid Alerts:** Be aware of the Safety Gate system for quick updates on product safety.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety goggles and gloves when using the tap and bushings to protect against metal shavings and debris.
- **Work Environment:** Ensure that your workspace is clean, welllit, and free from distractions. This will help you focus and reduce the risk of accidents.
- **Tool Inspection:** Before use, inspect the tap and bushings for any signs of damage or wear. Do not use damaged tools.
- **Proper Handling:** Handle the tap and bushings with care to avoid injury. Avoid using excessive force when inserting or removing the tap.
- **Follow Instructions:** Adhere strictly to the installation and usage instructions provided in this guide.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and safe to work on.
- Gather all necessary tools and materials, including the oversized stock bushings, tap, and appropriate grip screws.

2. Cleaning the Stripped Holes:

- Use the special tap to clean out any stripped frame threads. Ensure that the tap is aligned properly with the hole to avoid crossthreading.
- Turn the tap clockwise until it cuts new threads. Do not force the tap; if you encounter resistance, back it out slightly and then continue.

3. Installing the Bushings:

- Once the new threads are cut, take the oversized stock bushings and insert them into the newly threaded holes.
- Ensure that the bushings are seated properly and securely.

4. **Securing the Grip Screws:**

- Use the original grip screws to secure the bushings in place. Tighten them gently to avoid stripping the threads again.
- Check the stability of the installation by gently tugging on the grip.

5. **Final Inspection:**

- After installation, inspect the bushings and screws for proper alignment and security.
- Ensure that there are no loose parts before using the firearm.

Disposal Instructions

- **Disposal of Old Parts:** Dispose of any old bushings or screws in accordance with local regulations. Do not dispose of them in regular household waste.
- **Packaging Disposal:** Recycle the packaging materials where possible. Follow local recycling guidelines.

Contact Information for Further Support

For further assistance or inquiries regarding the 1911 AUTO OVERSIZED STOCK BUSHINGS & TAP, please refer to the appropriate contact point provided with your product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure safe and effective use of the 1911 AUTO OVERSIZED STOCK BUSHINGS & TAP. Always prioritize safety and compliance with local regulations when using this product.
