

PREMIUM GRINDING POINT KIT - BROWNELLS #8 (B-111) GRINDING STONE REFILL 6 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Grinding Bits](#)

The Most Popular/Useful Shapes & Sizes

Brownells "Premium Plus" stones are the very finest we can offer. Industrial grade cobalt is added to uniformly sized aluminum oxide crystals and bonded with special, cool-running adhesives to form the hardest, longest-wearing, fastest-cutting, grinding points available to the trade. Gives a smooth, ready-to-finish surface on all types of ferrous and non-ferrous metals. Stones resist filling and gouging; can be re-ground or re-shaped, lasting much longer than "hobby" grade points. Hardened steel shafts are nickel plated for long life and stay concentric even with repeated use. We picked our 10 most popular grinding points and put 3 of each into a convenient, easy-to-store Kit and included a very special price for buying all 30 points at one time. Plus, the economical Refill 6-Paks make it easy to keep your Kit well stocked.

Safety Instruction Guide for PREMIUM GRINDING POINT KIT BROWNELLS #8 (B111)

Introduction

Thank you for choosing the PREMIUM GRINDING POINT KIT BROWNELLS #8 (B111). This product is designed to provide highquality grinding solutions for both ferrous and nonferrous metals. To ensure your safety and the best performance from this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always read the product instructions before use.
- Ensure that the grinding points are suitable for the materials you are working with.
- Keep the work area clean and welllit.
- Wear appropriate personal protective equipment (PPE) such as safety goggles, gloves, and a dust mask.
- Ensure that the tool you are using is compatible with the grinding points.
- Store the grinding points in a safe place, out of reach of children and pets.

Specific Safety Precautions for Use

- Inspect each grinding point for damage before use. Do not use damaged points.
- Always secure the workpiece before grinding to prevent movement.
- Do not exceed the maximum speed rating of the grinding points.
- Avoid applying excessive pressure while grinding; let the tool do the work.
- Be aware of flying debris and sparks; maintain a safe distance from flammable materials.
- If you experience any unusual vibrations or sounds while using the grinding points, stop immediately and inspect the tool.

Instructions for Installation and Usage

1. Installation:

- Ensure the tool is unplugged or powered off before installation.
- Select the appropriate grinding point for your task.
- Insert the shank of the grinding point into the tool's chuck securely.
- Tighten the chuck according to the manufacturer's instructions to prevent slippage.

2. Usage:

- Turn on the tool and allow it to reach full speed before making contact with the workpiece.
- Hold the tool firmly and maintain a steady hand while grinding.
- Move the grinding point across the surface of the workpiece in a controlled manner.
- After use, turn off the tool and allow the grinding point to come to a complete stop before removing it.

Disposal Instructions

- Dispose of used grinding points in accordance with local regulations.
- Do not dispose of grinding points in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support regarding the PREMIUM GRINDING POINT KIT BROWNELLS #8 (B111), please refer to the manufacturer's contact details provided with the product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the PREMIUM GRINDING POINT KIT BROWNELLS #8 (B111). Always prioritize safety and proper usage to maximize the benefits of this highquality product. Thank you for your attention to these guidelines.
