## The Most Popular/Useful Shapes & Sizes

Brownells "Premium Plus" stones are the very finest we can offer. Industrial grade cobalt is added to uniformly sized aluminum oxide crystals and bonded with special, cool-running adhesives to form the hardest, longest-wearing, fastest-cutting, grinding points available to the trade. Gives a smooth, ready-to-finish surface on all types of ferrous and non-ferrous metals. Stones resist filling and gouging; can be re-ground or re-shaped, lasting much longer than "hobby" grade points. Hardened steel shafts are nickel plated for long life and stay concentric even with repeated use. We picked our 10 most popular grinding points and put 3 of each into a convenient, easy-to-store Kit and included a very special price for buying all 30 points at one time. Plus, the economical Refill 6-Paks make it easy to keep your Kit well stocked.

## Introduction

Thank you for choosing the PREMIUM GRINDING POINT KIT from Brownells. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this guide carefully before using the grinding points.

## General Safety Guidelines

- Ensure that all safety equipment, such as goggles and gloves, is worn during use.
- Keep the workspace clean and welllit to avoid accidents.
- Store the grinding points in a safe place, out of reach of children.
- Regularly check the product for any signs of damage before use.
- Dispose of any broken or worn grinding points properly.

## Specific Safety Precautions for Use

- Always use the grinding points at the recommended speed and pressure to avoid overheating and damage.
- Avoid direct contact with the grinding points when they are in motion.
- Do not use the grinding points on materials other than those specified by the manufacturer.
- Ensure that the shank is securely mounted in the tool before use.
- If you experience any unusual vibrations or sounds while using the grinding points, stop immediately and check for issues.

## Instructions for Installation and Usage

### 1. Installation:

- Make sure the tool is unplugged or turned off before installation.
- Insert the shank of the grinding point into the tool's chuck or holder.
- Tighten the chuck securely to ensure the grinding point is held in place.

### 2. Usage:

- Turn on the tool and allow it to reach the desired speed before contacting the material.
- Apply light, even pressure to the grinding point during use.
- Move the grinding point steadily across the material to achieve a smooth finish.
- Avoid applying excessive force, which may lead to damage or breakage.

## Disposal Instructions

- Dispose of broken or worn grinding points in accordance with local regulations.
- Do not throw grinding points in regular household waste; consider recycling options where available.
- Always check local guidelines for the proper disposal of materials.

## **Contact Information for Further Support**

For any questions or concerns regarding the usage or safety of the PREMIUM GRINDING POINT KIT, please refer to the manufacturer's website or contact their customer support for assistance.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your PREMIUM GRINDING POINT KIT. Always prioritize safety and proper handling to maximize the lifespan and performance of your grinding points. Thank you for choosing Brownells.
