

PREMIUM GRINDING POINT KIT - BROWNELLS #11 GRINDING STONE REFILL 6 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Grinding Bits](#)

The Most Popular/Useful Shapes & Sizes

Brownells "Premium Plus" stones are the very finest we can offer. Industrial grade cobalt is added to uniformly sized aluminum oxide crystals and bonded with special, cool-running adhesives to form the hardest, longest-wearing, fastest-cutting, grinding points available to the trade. Gives a smooth, ready-to-finish surface on all types of ferrous and non-ferrous metals. Stones resist filling and gouging; can be re-ground or re-shaped, lasting much longer than "hobby" grade points. Hardened steel shafts are nickel plated for long life and stay concentric even with repeated use. We picked our 10 most popular grinding points and put 3 of each into a convenient, easy-to-store Kit and included a very special price for buying all 30 points at one time. Plus, the economical Refill 6-Paks make it easy to keep your Kit well stocked.

Safety Instruction Guide for PREMIUM GRINDING POINT KIT BROWNELLS #11 GRINDING STONE REFILL 6 PACK

Introduction

Thank you for purchasing the PREMIUM GRINDING POINT KIT from Brownells. This guide provides essential safety instructions to ensure safe and effective use of the grinding points. Please read this guide carefully before using the product.

General Safety Guidelines

- Always use the grinding points in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure that the work area is clean and welllit to avoid accidents.
- Wear appropriate personal protective equipment (PPE) including safety goggles, gloves, and a dust mask to protect against debris and dust.
- Inspect the grinding points for any damage before use. Do not use damaged points.
- Be aware of the material you are working on and ensure that it is compatible with the grinding points.

Specific Safety Precautions for Use

- **Avoid inhaling dust:** Grinding can produce fine dust. Always use a dust mask or respirator.
- **Prevent skin contact:** Avoid direct contact with grinding points to prevent cuts or abrasions.
- **Secure workpieces:** Ensure that the material being worked on is securely clamped to prevent movement during grinding.
- **Use appropriate speed:** Always use the grinding points at the recommended speed to prevent overheating and damage.
- **Do not overload:** Avoid excessive pressure on the grinding points to prevent breakage and ensure longevity.
- **Avoid water:** Do not use grinding points with water or any other liquids unless specifically designed for wet use.

Instructions for Installation and Usage

1. Installation:

- Ensure your grinding tool is turned off and unplugged.
- Select the appropriate grinding point from the kit.
- Insert the shank of the grinding point into the tool's collet or chuck, ensuring it is securely fastened.
- Tighten the collet or chuck according to the manufacturer's specifications.

2. Usage:

- Turn on the grinding tool and allow it to reach the desired speed before making contact with the workpiece.
- Apply light pressure and move the grinding point across the surface of the material.
- Periodically check the grinding point for wear and replace it as necessary.
- After use, turn off the tool and allow it to cool before handling.

Disposal Instructions

- Dispose of used grinding points in accordance with local regulations.
- Do not throw grinding points in regular household waste. Check for local recycling programs or hazardous waste disposal options.
- Ensure that all packaging materials are disposed of responsibly and in accordance with local waste management guidelines.

Contact Information for Further Support

For any questions regarding the use or safety of the PREMIUM GRINDING POINT KIT, please refer to the manufacturer's website or contact their customer support.

Conclusion

Following these safety instructions will help ensure a safe and effective experience with your PREMIUM GRINDING POINT KIT. Always prioritize safety and adhere to the guidelines provided. For further information or updates, please check relevant safety platforms and resources.
