

LASER TRAINING SYSTEM - LASERLYTE 9MM LUGER LASER TRAINING CARTRIDGE

[Shooting Accessories](#) > [Targets & Accessories](#) > [Target Accessories](#)

Realistic, Anywhere/Anytime Practice Without Expending Ammo

Helps you train without going to the range or burning up ammo. Simply insert the laser training cartridge unit into the chamber like an ordinary cartridge. When you pull the trigger, the firing pin activates a switch that turns on the bright red laser dot to indicate the “bullet” impact point. Activates for 100 milliseconds each time the firing pin strikes. Use it to “call the shots” on any standard target or, for a more interactive experience, with the Training Target sold below. Rimless housing prevents the LTS from being extracted and ejected when you rack the slide—perfect for tap/rack/bang malfunction drills. Soft brass housing is fitted with two rubber O-rings to prevent damage to the chamber.

Attributes

- Name: [LASERLYTE 9MM LUGER LASER TRAINING CARTRIDGE](#)

LASERLYTE 9MM LUGER LASER TRAINING CARTRIDGE Safety Instruction Guide

Introduction

Thank you for choosing the LASERLYTE 9MM Luger Laser Training Cartridge. This product is designed to enhance your training experience without the need for live ammunition. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the training cartridge is used only in a safe environment, free from unauthorized users and distractions.
- Always treat the training cartridge as if it were a real firearm.
- Keep the training cartridge out of reach of children and vulnerable individuals.
- Regularly inspect the training cartridge for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not use the training cartridge in a live firearm. It is designed solely for training purposes.
- Only use the training cartridge with compatible firearms that are designed for 9mm Luger ammunition.
- Ensure that the firearm is unloaded before inserting the training cartridge.
- Avoid pointing the firearm at yourself or others when using the training cartridge.
- Do not modify or tamper with the training cartridge in any way.
- If the laser is not functioning as expected, discontinue use immediately and check for battery issues or damage.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is completely unloaded.
- Insert the LASERLYTE training cartridge into the chamber of the firearm just like an ordinary cartridge.
- Make sure the cartridge is securely in place before proceeding.

2. Usage:

- With the training cartridge installed, pull the trigger as you would with a standard firearm.
- The firing pin will activate the switch, turning on the bright red laser dot for 100 milliseconds to indicate the "bullet" impact point.
- Use the laser dot to practice aiming and shooting on standard targets or with the Training Target sold separately.
- After training, remove the training cartridge from the chamber by racking the slide. The rimless housing prevents extraction and ejection during practice drills.

Disposal Instructions

- Dispose of the training cartridge in accordance with local regulations for electronic waste.
- Remove the batteries before disposal to ensure safe handling.
- Do not throw the training cartridge in regular household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the LASERLYTE 9MM Luger Laser Training Cartridge, please refer to the contact information provided by your retailer or manufacturer.

Conclusion

By following these safety instructions, you can ensure a safe and effective training experience with your LASERLYTE 9MM Luger Laser Training Cartridge. Always prioritize safety in your training practices. Thank you for your attention to these important guidelines.
