

AR-15/M16 9MM DROP-IN CONVERSION BLOCKS W/32RD MAGAZINE - BROWNELLS 9MM TOP LOADING CONVERSION BLOCK W/ 32-RD MAGAZINE

[Rifle Parts](#) > [Receiver Parts](#) > [Caliber Conversion Kits](#)

Allows for a quick conversion to 9mm in conjunction with a 9mm upper. Compatible with Colt type 9mm upper receivers. Use existing AR-15/M16 lower receiver. If used with 100-004-363 9mm bolt carrier, there is no need to swap out the standard hammer, allowing for a quick and easy change of calibers. Conversion Blocks - One-piece, machined aluminum block converts AR-15 lower receiver to 9mm. Compatible with all, Colt-type, 9mm upper receivers, the feed ramp is cut for reliable feeding with all types of ammo, including hollow point and frangible ball. Roller retention device holds block securely in receiver, prevents accidental release. Hardened steel ejector, feed ramp and bolt hold open give long service life; last-round-hold-open feature on bottom-loading model works when used with Colt magazines. Also works with modified UZI magazines but last-round-hold-open will not function. No receiver modification required. Top-Loading Block installs from the top of the lower receiver and Bottom-Loading Block installs from the bottom of the lower receiver.
