

AR-15 LIGHTWEIGHT 5.56 BOLT CARRIER COMPLETE - FAXON FIREARMS 5.56X45MM NATO LIGHTWEIGHT MIL-SPEC BCG NITRIDE BLACK

[Rifle Parts](#) > [Bolt Parts](#) > [Bolt Carrier Groups](#)

Faxon Firearms set out to create a bolt carrier group that could live up to the GUNNER name with no compromise in strength or function. They set specifications that would allow no compromise: Lightest Weight Possible (8.5 Ounces Complete) MIL-SPEC Materials & Finishes or Better! Forward Assist Serrations Compatible with Dust Covers Maintains Full-Auto Trip Sear for full-auto and the new multi-stage trigger functionality Looks Amazing Matching their barrels, they selected the QPQ method of Salt Bath Nitride for all the carriers' components. By coating all parts, the carrier's natural slickness is increased markedly requiring less gas and pressure to operate. Further, the QPQ SBN process seals components against corrosion while making them fantastically wear resistant. Improvements include using 9310 tool steel for the bolt, which is stronger and nitriding the assembly to increase surface hardness, decrease resistance, and have superior corrosion resistance compared to typical chrome and phosphated bolt carrier groups. All bolts are fully MPI tested to ensure the material is sound and without defects. Bolt lugs are chamfered 45 degrees to ensure reliable action for even the highest pressure hand loads and fast lightweight actions. Faxon Bolt Carrier Groups are Superfinished to reduce friction, increase smoothness of operation, and reduce fouling. Further, they are full-Auto rated and maintain the trip for full-auto fire control groups and new multi-stage trigger systems. Gas keys use grade 8 fasteners and are fully staked for a lifetime of service. As a testament of our confidence, the carriers are all laser-engraved with the Faxon Shield after passing all Quality inspections. DETAILED SPECIFICATIONS: Bolt: 9310 Tool Steel Construction (Stronger than C158) Full MIL-SPEC Heat Treatment Shot Peened to MIL-SPEC Magnetic Particle Inspection (MPI) Back of Lugs Chamfered for Reliability Spring, Insert, & "Crane" O-Ring Installed QPQ - Salt Bath Nitrided Extractor: S7 Tool Steel Construction Fully Heat Treated Shot Peened Per MIL-SPEC QPQ - Salt Bath Nitrided Carrier & Key: Superfinished Carrier Carrier: MIL-SPEC 8620 Steel Material Key: 4140 Steel Material Fully Heat Treated Forward Assist Serrations M16 (FULL-AUTO) Compatible Grade 8 Fasteners Fully & Properly Staked Key, Permatex Sealed QPQ - Salt Bath Nitrided Weight w/ Key (Not Bolt or any Pins): 6.32 Ounces Cam Pin: 4140 Pre-Hardened Steel Material QPQ - Salt Bath Nitrided

Attributes

Safety Instruction Guide for the AR15 Lightweight 5.56 Bolt Carrier Group

Introduction

Thank you for choosing the AR15 Lightweight 5.56 Bolt Carrier Group from Faxon Firearms. This product is designed to provide reliable performance and durability. Please read this safety instruction guide carefully to ensure safe usage and compliance with all relevant safety regulations.

General Safety Guidelines

- **Product Safety:** Ensure safe use of this product by following all instructions and guidelines.
- **Risk Awareness:** Be aware of potential risks associated with the use of firearms and their components.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product.
- **Online Shopping Protections:** If purchased online, ensure the platform complies with safety requirements.
- **Vulnerable Groups:** Keep this product out of reach of children and individuals who are not trained in firearm safety.
- **EU Contact Point:** For safety inquiries, refer to the designated EU contact point for this product.
- **Rapid Alerts:** Monitor the Safety Gate system for updates on unsafe products.

Specific Safety Precautions for Use

- **Handling:** Always handle the bolt carrier group with care. Treat every firearm as if it is loaded.
- **Storage:** Store the bolt carrier group in a secure location, away from unauthorized users.
- **Inspection:** Regularly inspect the bolt carrier group for wear, damage, or defects before use.
- **Compatibility:** Ensure that this bolt carrier group is compatible with your firearm model before installation.
- **Training:** Only use this product if you have received proper training in firearm operation and safety.
- **Protective Gear:** Wear appropriate protective gear, such as safety glasses, when handling or operating firearms.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing bolt carrier group from the firearm.
- Install the Faxon Lightweight Bolt Carrier Group by aligning it properly in the receiver.
- Ensure that all components are securely in place.
- Check that the gas key is properly staked and sealed.

2. Usage:

- Before firing, doublecheck that the firearm is in good working order.
- Use only the recommended ammunition for your firearm.
- Be aware of your surroundings and ensure a safe shooting environment.
- Follow all local laws and regulations regarding firearm usage.

3. PostUse:

- Clean the bolt carrier group after each use to maintain performance.
- Store the firearm and bolt carrier group securely when not in use.

Disposal Instructions

- Dispose of the bolt carrier group in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, contact local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the AR15 Lightweight 5.56 Bolt Carrier Group, please refer to the manufacturer's website or contact your local dealer for assistance.

By following these safety guidelines and instructions, you can ensure safe and effective use of your AR15 Lightweight 5.56 Bolt Carrier Group. Thank you for your attention to safety.
