

# RAPID HEMOSTATIC Z-FOLD GAUZE - CELOX MEDICAL 1"X5' CELOX RAPID RIBBON HEMOSTATIC GAUZE

[Emergency & Survival Gear](#) > [First Aid](#) > [First Aid Supplies](#)

Time is critical when treating severe injuries in the field and saving time increases the chance of survival for the casualty in an emergency or hostile situation. To be effective in real use, hemostatic dressings need to work fast. The low profile pack means Celox Rapid Ribbon is easily concealed and the reduced size makes it ideal for treating narrow entry wounds such as bullet, blast fragment and stab injuries. Works with just 60 seconds compression. Stops severe bleeding - fast. Rapid action reduces blood loss. Stops hypothermic bleeding as found in severe traumatic injuries. The current generation of hemostatic agents need at least 3 minutes of compression to work. Celox Rapid Ribbon Gauze removes the delay by speeding up packing time and reducing compression time to just 60 seconds while using the proven hemostatic technology of Celox.

# Safety Instruction Guide for RAPID HEMOSTATIC ZFOLD GAUZE CELOX MEDICAL

## Introduction

Thank you for choosing the RAPID HEMOSTATIC ZFOLD GAUZE CELOX MEDICAL. This product is designed to provide rapid hemostatic action in emergency situations. It is crucial to understand the safety guidelines and usage instructions to ensure effective and safe application.

## General Safety Guidelines

- **Product Safety:** This product is designed to be safe for use in emergency situations. It meets all necessary EU safety regulations.
- **Enhanced Recalls:** In the unlikely event of a product recall, you will be notified through standardized recall notices. Please follow the instructions provided for any necessary actions.
- **Online Shopping:** If purchased online, this product is subject to the same safety protections as those bought in physical stores.
- **Special Consumer Focus:** Extra care should be taken when using this product on vulnerable groups, such as children.
- **EU Contact Point:** For any safety inquiries, please consult the designated EU contact point for this product.
- **Rapid Alerts:** Stay informed about product safety updates via the EU Safety Gate system.

## Specific Safety Precautions for Use

- **Avoid Contact with Open Wounds:** Do not apply the gauze directly to open wounds unless necessary.
- **Check for Allergies:** Ensure that the user is not allergic to any materials in the gauze.
- **Use Only as Directed:** This product is intended for emergency use only. Follow the instructions carefully.
- **Monitor for Adverse Reactions:** After application, monitor the user for any adverse reactions or complications.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the area is clean and free of debris.
- Have all necessary supplies ready for application.

### 2. Application:

- Remove the gauze from its packaging.
- Place the gauze directly on the wound.
- Apply firm pressure for 60 seconds to allow the hemostatic action to take effect.
- If bleeding continues, consider additional layers of gauze as needed.

### 3. PostApplication:

- Once bleeding has stopped, secure the gauze with a bandage or dressing.
- Seek medical assistance as soon as possible.

## **Disposal Instructions**

- Dispose of used gauze and packaging in accordance with local regulations for medical waste.
- Do not reuse the gauze once it has been applied.

## **Contact Information for Further Support**

For further assistance or inquiries regarding the RAPID HEMOSTATIC ZFOLD GAUZE CELOX MEDICAL, please refer to the appropriate EU contact point.
