

PREMIUM HANDGUN DIE SETS - REDDING 44 SPECIAL, 44 MAGNUM PREMIUM HANDGUN DIE SET

[Reloading](#) > [Reloading Dies](#) > [Handgun Dies](#)

The Redding Premium Handgun 3-Die Set mate a Titanium Carbide-sizing die, a newly designed expander die containing the unique Redding expander plug now coated in TiN, Titanium Nitride for added surface hardness, lubricity and durability. The TiN coating will also reduce brass build up on the expander as well, an important improvement for high volume reloaders. The Redding Expander contains a unique series of processes it provides as it travels into the case itself. First a radius on its base eases entry into the case mouth. Next a parallel expander section expands and true's the case internally to create a perfect bearing surface for the bullet as it is seated. This also adds a more uniform bullet pull and start pressure as well. Next is a small step, to properly align the bullet with the centerline of the cartridge case. This positions the bullet for proper contact with the seating micrometer, adding uniformity during actual seating process. Lastly, a flare is the final step on the Redding expander plug to further open the case mouth when using cast bullets so that they do not shave lead during the seating process. The final die in the set is a Seating Die, which has the added accessory Bullet Seating Micrometer for unmatched seating depth control and precision. This die also contains either a taper or roll crimp for the appropriate cartridge. All three dies in the set also feature an enhanced lead-in for ease of use with progressive reloading presses.

Attributes

- Name: [REDDING 44 SPECIAL, 44 MAGNUM PREMIUM HANDGUN DIE SET](#)
- Manufacturer: [REDDING](#)
- Product no.: 100028777

Safety Instruction Guide for Redding Premium Handgun Die Sets

Introduction

Thank you for choosing the Redding Premium Handgun Die Set for your reloading needs. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this document thoroughly to familiarize yourself with the necessary precautions and procedures.

General Safety Guidelines

- Ensure that the die set is used only by individuals who are familiar with reloading practices and safety protocols.
- Always wear appropriate safety gear, including safety glasses and gloves, when handling reloading equipment and materials.
- Keep the die set and all reloading components out of reach of children and unauthorized users.
- Regularly inspect the die set for any signs of wear or damage. Do not use damaged equipment.
- Follow all local laws and regulations regarding the use of firearms and ammunition reloading.

Specific Safety Precautions for Use

- **Handling of Components:**

- Always handle the dies and other components with care to avoid injury.
- Do not force components together or use excessive pressure, which may cause damage.

- **Reloading Process:**

- Ensure that you are using the correct components for the caliber you are reloading (44 Special or 44 Magnum).
- Verify that the reloading press is securely mounted and stable before use.
- Do not leave the reloading process unattended. Stay focused and avoid distractions.

- **Storage:**

- Store the die set in a cool, dry place when not in use to prevent corrosion and deterioration.
- Keep the die set in its original packaging or a dedicated storage case to avoid damage.

Instructions for Installation and Usage

1. Installation of the Die Set:

- Ensure that your reloading press is clean and free from debris.
- Carefully remove the die set from its packaging.
- Install the Titanium Carbidesizing die into the press according to the manufacturer's instructions.
- Follow with the expander die and finally the seating die, ensuring each is tightened securely.

2. Using the Die Set:

- Start by sizing the brass cases using the sizing die. Ensure the cases are clean and free of dirt.
- Insert the expander die into the press. Use it to expand the case mouth for bullet seating.
- Finally, use the seating die to seat the bullets to the desired depth. Adjust the bullet seating micrometer for precision.

- After each batch of reloads, inspect the finished cartridges for any defects.

3. PostUsage Care:

- Clean the dies after each use to remove any residue or buildup.
- Store the die set in a safe location when not in use.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local waste disposal regulations.
- Do not discard reloading components in regular household waste. Instead, contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Redding Premium Handgun Die Set, please refer to the contact information provided with your product packaging or consult the manufacturer's website for further assistance.

Thank you for your attention to these safety guidelines. We wish you a safe and enjoyable reloading experience.
