## Dread Those Uncomfortable Shooting Positions No Longer

The OG by Armageddon Gear takes us back to the roots of Reasor Precision's simple solver that changed the game of positional shooting. Origins of Reasor's grasping front support bag for firearm stability began with a specific shape, heavy-poly fill blend and pliable shell to yield the most effective and versatile solution developed for those uncomfortable positions that marksmen used to dread. Also available in a Waxed Canvas version. 1000D Cordura fabric or Waxed Canvas Includes two handles on opposite ends for ambidextrous use Total weight of over 6 pounds and filled with Reasor Precision Solutions approved recycled plastic fill Dimensions: approximately 10" Long, 7" Tall and 6" Wide Zipper access to adjust fill to user desired ratio A note on shooting bags: Most positional shooting bags are not filled firmly on purpose. The reason being a loose filled bag will fill in gaps, drape across obstacles, and create a more stable shooting platform than a firm filled bag.
