

1911 EDC X9 9MM BLACK AMBI

[Firearms](#) > [Handguns](#) > [Semi-Auto](#)

Wilson Combat has redefined the defensive handgun with the EDC X9, a modern hybrid of our EDC 9 1911 slide assembly mated with the all new high-capacity X-frame. This groundbreaking design combines the accuracy, ergonomics and trigger pull of the classic 1911 design with enhanced reliability, and concealable, high capacity performance. The ergonomic design of the X-frame in conjunction with your choice of small or large back strap and small, medium or long trigger pad can be tailored to fit all hand sizes comfortably. The EDC X9 front and back strap are machined with the Wilson Combat X-Tac tread pattern that provides a tactile but nonabrasive grip in all shooting conditions. The EDC X9 will fit the majority of holsters on the market designed for 4" or 4.25" 1911 pistols and is offered with or without an accessory rail. The EDC X9 comes with many options to help fit the gun to your needs and preferences. Please refer to our FAQ Section to learn more about the parts we've used, maintaining your gun, and other questions you might have. Designed by Bill Wilson and Wilson Combat engineers, the X-frame is a 15-round, high capacity 9mm 1911 frame that is similar in size to a traditional compact, single stack 1911. The X-frame is machined at Wilson Combat from T6-7075 aluminum and accepts a high capacity magazine with a grip that is smaller in circumference than a standard 1911 while retaining traditional 1911 controls. The EDC X9 15-round, double column magazine was developed jointly with Mec-Gar, industry leaders in double column magazine design. The screwless X-frame design uses hammer spring tension to keep the aggressive traction Wilson/VZ G-10 starburst pattern grips securely in place. The result is a highly concealable, high capacity pistol frame that easily disassembles for grip/back strap removal or routine cleaning with a "?" pin punch. "The EDC X9 has been the most extensive design and development project Wilson Combat has undertaken in our 40-year history and it reflects what the company has become today from our humble beginnings as a one man gunsmithing shop."-Bill Wilson, CEO of Wilson Combat. The EDC X9 slide assembly is from our single stack EDC 9 pistol with Wilson Combat's ERS "Enhanced Reliability System" for 9mm 1911's. The ERS is tailored to the varying power level of 9mm ammunition and maintains impressive reliability in all conditions, even when heavily fouled and low on lubrication. Other features include a Tri-Top slide profile with user-replaceable front sight, single lug tapered cone match-grade 1911 barrel, rear Tactical Adjustable Battlesight and a rugged, user-serviceable external extractor. "During my extensive shooting of the EDC X9 during development and final testing I have been very impressed with its functional reliability beginning all the way back to some of the early prototypes, this tells me the overall design is inherently very sound and I applaud our engineers and pistol smiths that worked so hard on this project."-Bill Wilson, CEO of Wilson Combat. Safety Instruction Guide for the 1911 EDC X9 9MM

Introduction

Thank you for choosing the 1911 EDC X9 9MM. This product is designed to provide you with a reliable and highperformance handgun. Please read this safety instruction guide carefully to ensure safe handling and usage. Adhering to these guidelines will help you avoid potential hazards and enhance your shooting experience.

General Safety Guidelines

- Always treat the firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store the firearm in a secure location, out of reach of children and unauthorized users.
- Regularly inspect and maintain your firearm to ensure it is in safe working condition.
- Be aware of your surroundings and ensure a clear shooting area before firing.
- Use only the recommended ammunition specified by the manufacturer.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.
- Familiarize yourself with the local laws and regulations regarding firearm ownership and usage.

Specific Safety Precautions for Use

- Ensure the firearm is unloaded before cleaning or performing any maintenance.
- Do not modify the firearm or use aftermarket parts that are not authorized by the manufacturer.
- Be cautious when handling the firearm in lowlight conditions or adverse weather.
- If you experience a misfire or hangfire, follow the recommended procedures for safely addressing the issue.
- Do not use the firearm if it appears damaged or malfunctioning; seek professional assistance.
- Avoid distractions and remain focused while handling the firearm.
- Ensure that all individuals present during usage are aware of the firearm and its handling.

Instructions for Installation and Usage

• Installation of Accessories:

- Ensure the firearm is unloaded before attaching or detaching any accessories.
- Follow the manufacturer's instructions for the installation of any accessory rail attachments.
- If using a holster, ensure it is compatible with the 1911 EDC X9 and allows for safe and secure storage.

• Loading the Firearm:

- Always check that the firearm is pointed in a safe direction.
- Ensure the magazine is loaded with the correct ammunition.
- Insert the magazine into the magazine well until it clicks into place.
- Pull the slide back to chamber a round, ensuring the firearm is ready for use.

• Firing the Firearm:

- Assume a proper shooting stance with a firm grip on the firearm.
- Align your sights on the target.

- Place your finger on the trigger only when ready to shoot.
- Squeeze the trigger smoothly to fire the round.

- **PostFiring:**

- After firing, keep the firearm pointed in a safe direction.
- Remove the magazine and check the chamber to ensure it is empty.
- Store the firearm safely and securely.

Disposal Instructions

- Dispose of the firearm in accordance with local laws and regulations.
- Do not dispose of ammunition in regular trash; follow specific guidelines for hazardous materials.
- If you are unsure about disposal methods, consult local authorities or a professional firearms dealer.

Contact Information for Further Support

For questions or concerns regarding the 1911 EDC X9, please refer to the manufacturer's website or contact the customer support team. Ensure that you have the model information and any relevant details ready for assistance.

By following these safety instructions, you can help ensure your safety and the safety of others while using the 1911 EDC X9 9MM. Thank you for your attention to these important guidelines.
