[Optics & Mounting](#) > [Electronic Sights](#) > [Mounting Hardware](#)

An Enhanced Adapter Plate for Your Optics Mounting System

V4 DEFENDER OPTIC MOUNTING PLATE FOR GLOCK MOS The weakest link in your red-dot-equipped handgun is the mounting plate between the optic and your pistol slide. If this critical component isn't designed correctly, then your entire system won't work as designed. The C&H Precision V4 Defender series optic mounting plates are designed to address the critical flaws encountered in most plates, and it will ensure that your gun performs as designed. Each C&H Precision V4 Defender Optic Mounting Plate designed for use on Glock® pistols improves two key elements of optics mounting: hardware and optic protection. The plates feature the company's patent-pending T-Nuts and Torx screws, which are made from stainless steel and are replaceable without having to toss the entire plate. The V4 Defender Optics Mounting Plate is available for the Glock® 17, 19, 34, 35, 40 and 41. Also included on these C&H V4 Defender Optics Mounting Plates is the company's unique Defender Window. This incorporates a proprietary polymer that's resistant to impact and provides an extra protective window at the front of your red-dot sight. Not only does this window protect your optic from the elements, it also provides a barrier that prevents you from smudging your lens while manipulating a handgun slide. Optic fits include: Holosun 407, Holosun 507, Holosun 508. TO ENSURE THE LONGEVITY OF THIS PRODUCT, IT'S IMPORTANT TO USE IT WITH CARE AND IN A RESPONSIBLE MANNER. The Defender was not made for the G40; however, many customers have purchased the Defender and made a small modification that allowed it to work extremely well with the G40. Defender plates partially wrap the top of the slide and do not fit large frame Glock pistols, I.E. G21 and all pistols of similar width.

Attributes

- Name: [C&H PRECISION WEAPONS HOLOSUN 407/507/508 MOUNTING PLATE ROUND FACE FOR GLOCK MOS](#)

Safety Instruction Guide for V4 Defender Optic Mounting Plate for Glock MOS

Introduction

Thank you for choosing the V4 Defender Optic Mounting Plate for your Glock® MOS. This guide provides essential safety information, installation instructions, and maintenance tips to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the mounting plate is compatible with your specific Glock® model (17, 19, 34, 35, 40, or 41).
- Always inspect the mounting plate for any signs of damage or wear before installation and use.
- Do not use the mounting plate with large frame Glock pistols, such as the G21 or similar models.
- Keep the mounting plate and its components out of reach of children and vulnerable individuals.
- If you notice any unusual behavior or performance issues with your optic or firearm while using this mounting plate, discontinue use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Always handle your firearm in a safe manner, following all standard firearm safety rules.
- Ensure that the red dot sight is securely mounted and properly aligned on the mounting plate before use.
- Do not attempt to modify the mounting plate without proper knowledge and tools.
- Avoid exposing the mounting plate to extreme temperatures or harsh chemicals that may affect its integrity.
- Use caution when cleaning the mounting plate and the optic; avoid abrasive materials that could scratch the protective window.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including Torx screws and TNuts provided with the mounting plate.
- Ensure your Glock® is unloaded and pointed in a safe direction during installation.

2. Installation:

- Remove the existing mounting plate from your Glock® MOS slide if applicable.
- Align the V4 Defender Optic Mounting Plate with the mounting holes on your Glock® slide.
- Insert the TNuts into the designated slots on the mounting plate.
- Secure the mounting plate in place using the Torx screws. Ensure that screws are tightened but do not overtighten to avoid damage.
- Attach your optic (Holosun 407, 507, or 508) to the mounting plate, following the manufacturer's instructions for the optic.

3. Usage:

- After installation, check the stability and alignment of your optic.
- Regularly inspect the mounting plate and optic for any signs of wear or damage during use.
- If modifications are made to fit a G40, ensure that they do not compromise the safety and functionality of the mounting plate.

Disposal Instructions

- Dispose of the mounting plate and any components in accordance with local regulations.
- Do not dispose of the mounting plate in regular household waste. Check for recycling programs that accept metal and plastic components.
- Ensure that all parts are securely disposed of to prevent accidental use or injury.

Contact Information for Further Support

For any inquiries regarding safety or product support, please consult the manufacturer's website or contact their customer service directly.

By following these guidelines, you can ensure the safe and effective use of the V4 Defender Optic Mounting Plate for your Glock® MOS. Always prioritize safety and responsible handling of firearms and accessories.
