

BUSHING BUMP NECK DIE KITS - BUSHING BUMP KIT, FL SIZER, ULTRA SEATER 223 REM

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Thanks to the Forster Bushing Bump Neck Die Kits, precision reloaders can now finely control the amount of tension put on the necks of their cartridges. Each of these sizing-die kits includes a hand-polished sizing die that perfectly matches the caliber of your firearm, as well as three hand-selected bushing sizes that are picked by Forster staff themselves. Each of the bushings are finely machined to a smooth internal finish. Available calibers in the Forster Bushing Bump Neck Die Kits are .284 Winchester, 6.8 SPC and 6mm Creedmoor.

Safety Instruction Guide for BUSHING BUMP NECK DIE KITS

Introduction

Thank you for choosing the Forster Bushing Bump Neck Die Kits. These kits are designed for precision reloaders who wish to control the tension on the necks of their cartridges. This guide provides essential safety instructions to ensure the safe usage of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure all safety precautions are followed during the use of the Bushing Bump Neck Die Kits.
- Always read the product instructions carefully before use.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear or damage. If any issues are found, discontinue use immediately.
- Report any unsafe products or accidents to the relevant authorities.
- Stay updated on recall notices through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including safety glasses and gloves, when using the die kits.
- Ensure that the work area is clean and free from obstructions to avoid accidents during the reloading process.
- Use only the recommended caliber bushings that come with the die kits to prevent malfunction or accidents.
- Do not exceed the recommended load limits for the cartridges being used.
- Store the die kits in a cool, dry place to prevent damage and ensure longevity.
- Avoid using the die kits if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Setup:

- Ensure your reloading press is securely mounted and stable.
- Select the appropriate bushing size for your caliber.

2. Installation:

- Remove any existing dies from the reloading press.
- Install the handpolished sizing die into the press, ensuring it is securely tightened.
- Insert the selected bushing into the sizing die, making sure it is properly seated.

3. Reloading Process:

- Prepare your cartridges according to standard reloading practices.
- Place the cartridge in the press and operate the handle to size the neck.
- Check the tension on the neck of the cartridge using a suitable gauge.
- Repeat the process as necessary for each cartridge.

4. PostUse:

- Clean the die and bushings after use to remove any residue.
- Store the kits in their original packaging or a designated storage container.

Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations for hazardous waste.
- Do not throw the product in regular household waste.
- Check with local authorities for specific disposal guidelines for reloading components.

Contact Information for Further Support

For further support or inquiries regarding safety or product usage, please contact the manufacturer directly through their official channels.

By following these safety instructions, you can ensure a safe and effective reloading experience with the Forster Bushing Bump Neck Die Kits. Thank you for your attention to safety and for choosing our product.
