

1911 COMMANDER 45 DUAL RECOIL SPRINGS - COLT 1911 RECOIL SPRING, COMMANDER, 45, OUTER

[Handgun Parts](#) > [Recoil Parts](#) > [Recoil Springs](#)

Advanced Dual-Spring System Gives You a Softer-Recoiling, More Reliable Pistol These are replacement inner and outer recoil springs for Colt 1911 pistols chambered in 9mm Luger that use the new Colt Dual Spring Recoil System™ originally developed in 2011 for the USMC M45A1 pistol. The inner and outer springs work together to provide enhanced reliability and extended recoil spring service life up to 15,000 rounds. (The standard interval for replacing standard 1911 recoil springs is 5,000 rounds.) Tempered spring steel Correct spring tension for 45 ACP ammo Use ONLY in Colt 1911 Commander Model pistols or clones chambered in 45 ACP Other required components sold separately (described below) These inner and outer recoil springs must be used in conjunction with the other two parts of the Colt Dual Spring Recoil System™: a dedicated guide rod and recoil spring plug.

Safety Instruction Guide for 1911 COMMANDER 45 DUAL RECOIL SPRINGS

Introduction

Thank you for choosing the 1911 COMMANDER 45 DUAL RECOIL SPRINGS. This guide provides essential safety instructions and usage guidelines to ensure the safe and effective operation of your product. Please read this document carefully before using the recoil springs.

General Safety Guidelines

- Ensure that the product is used only in accordance with the manufacturer's instructions.
- Always handle firearms responsibly and keep them out of reach of children.
- Inspect the recoil springs regularly for signs of wear or damage.
- Do not use the recoil springs if they appear to be damaged or compromised.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use only in Colt 1911 Commander Model pistols or clones chambered in 45 ACP.
- Ensure that you are using the correct guide rod and recoil spring plug as part of the Colt Dual Spring Recoil System™.
- Avoid using the recoil springs with any other types of ammunition or firearm models.
- Do not exceed the recommended service life of 15,000 rounds without replacing the recoil springs.
- Follow all local laws and regulations regarding firearm usage and safety.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools and components, including the inner and outer recoil springs.

2. Installation:

- Remove the existing recoil springs from the firearm.
- Install the inner recoil spring first, ensuring it is seated correctly.
- Follow with the installation of the outer recoil spring, ensuring it fits snugly over the inner spring.
- Reinstall the guide rod and recoil spring plug, ensuring they are secure.

3. Usage:

- After installation, perform a function check to ensure the firearm operates correctly.
- Regularly inspect the recoil springs for any signs of wear or damage during routine maintenance.

4. Maintenance:

- Clean the recoil springs and surrounding components regularly to prevent dirt and debris buildup.
- Store the firearm in a safe and secure location when not in use.

Disposal Instructions

- Dispose of the recoil springs in accordance with local regulations for metal waste.
- Do not dispose of the recoil springs in regular household waste.
- Contact your local waste management authority for specific disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the 1911 COMMANDER 45 DUAL RECOIL SPRINGS, please refer to the manufacturer's contact information or customer support resources provided with your product.

By following this safety instruction guide, you can ensure the safe and effective use of your 1911 COMMANDER 45 DUAL RECOIL SPRINGS. Thank you for your attention to these important safety measures.
