

1911 TRIGGER PULL KITS - CYLINDER & SLIDE TACTICAL II 4LB TRIGGER PULL KIT, SS

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Match Quality Trigger Pull In A Drop-In Kit

Each kit is tested on a Series 70-style frame to make certain it will produce the specified pull weight with little or no fitting. Parts are wire EDM cut from bar stock, honed and polished, then heat treated for years of service life. All profiles and through-holes are mechanically correct to function without hand fitting. Sear nose has correct relief angle, sear spring is narrowed to reduce pull weight. Exposed hammer edges on Ultra-Light, Super?Match and Tactical II are chamfered to minimize slide drag and clothing wear. Each kit contains a hammer, sear, disconnecter, sear spring and hammer spring. ULTRA LIGHT KIT - 3.5 lb. pull weight. Ultra light, skeletonized, hammer; relieved to prevent frame rub. Ultra light match sear and disconnecter. Lightened sear spring, 18 lb. hammer spring. ULTRA LIGHT SPEED II KIT - 3 lb. pull weight. Low-profile, skeletonized hammer relieved to prevent frame rub; ultra-light weight cuts lock time to a minimum. Deep, crisp serrations ensure secure thumb contact for fast, positive cocking. Properly matched spring weights give the specified pull weight and ensure positive ignition. TACTICAL II KIT - 4 lb. pull weight. Tactical II hammer with relieved sides, ultra match sear and disconnecter, light sear spring, 18 lb. hammer spring. TACTICAL MATCH KIT - 4.5 lb. pull weight. Tactical hammer, sear, disconnecter, light pull sear spring, 18 lb. hammer spring. Great for carry guns. WARP SPEED KIT - 3 lb. pull weight. Very low mass hammer, relieved to prevent frame rub. Low mass sear and disconnecter, 18 lb. hammer spring, light pull sear spring. DUTY/CARRY KIT - 4½ lb. pull weight for duty or carry pistols. Comes with classic, military-style spur hammer, for those who prefer that style or are required to have it on duty weapons. Includes sear, disconnecter, 23 lb. hammer spring, and sear spring. PROFESSIONAL KIT - 5 lb. of pull weight and is designed for military and police shooters. Gives complete trigger control in high-stress situations. Contains hammer, sear, disconnecter, 23 lb. hammer spring and tactical sear spring.

Safety Instruction Guide for 1911 Trigger Pull Kits

Introduction

Thank you for choosing the 1911 Trigger Pull Kits from Cylinder & Slide. These kits are designed to enhance the performance of your firearm while ensuring safe and reliable operation. This guide provides important safety information and instructions to help you use the product correctly.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the trigger pull kits by following all instructions provided. These kits have been tested on Series 70 style frames to ensure safe operation.
- **Enhanced Recalls:** Stay informed about product recalls. If a safety issue arises, you will be notified through standardized recall notices.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to physical stores.
- **Special Consumer Focus:** Extra caution should be taken when using these kits around vulnerable groups, including children. Keep all parts out of reach of children.
- **EU Contact Point:** For any safety inquiries, refer to the EU based contact point provided by your retailer.
- **Rapid Alerts:** Check the EU's Safety Gate platform for updates on unsafe products.

Specific Safety Precautions for Use

- **Proper Handling:** Always handle your firearm with care. Ensure it is unloaded before installing any components from the kit.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which can lead to malfunction.
- **Testing:** After installation, test the trigger pull in a safe environment to ensure functionality before using the firearm in any shooting situation.
- **Regular Maintenance:** Regularly inspect and maintain your firearm and the installed components for wear and proper function.
- **Use by Qualified Individuals:** Only individuals familiar with firearm safety and operation should install or use these kits.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools for installation, including a punch set and hammer.

2. Installation Steps:

- Remove the existing trigger components (hammer, sear, disconnecter, springs) from your firearm.
- Refer to the specific kit instructions for the correct order of installation for each component.
- Install the new hammer, sear, disconnecter, and springs from the trigger pull kit.
- Ensure all parts are seated properly and check for any obstructions.

3. Testing:

- After installation, conduct a function test to ensure the trigger operates smoothly.
- Pull the trigger multiple times to check for consistent pull weight and proper engagement.

4. Usage:

- Use the firearm in accordance with all safety guidelines and local laws.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.

Disposal Instructions

- Dispose of any packaging materials and old parts in accordance with local waste disposal regulations.
- Do not dispose of firearm components in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions, concerns, or support regarding the 1911 Trigger Pull Kits, please refer to the contact information provided by your retailer or manufacturer. Ensure you have the product details at hand for a quicker resolution.

By following these safety instructions, you can ensure the responsible and safe use of your 1911 Trigger Pull Kits. Thank you for your commitment to safety and responsible firearm ownership.
