

OTB SIDE ARMOR BAGS - SPIRITUS SYSTEMS OTB SIDE ARMOR BAGS - BLACK

[Home](#)

OTB Side Armor Bags Over The Beach Operations are some of the most challenging and miserable operations that service members must endure. We are proud to bring a suite of products that directly results in improved load carriage and soldier survival during sea borne operations. The OTB product line is built with a mesh material which allows for quick drainage of water and sea borne debris such a sand. OTB products will dry faster after exiting the water and will drain water faster and more efficiently as well. The mesh also makes the products simple to clean using fresh water after conducting operations in salt environments. The LV/ Side Armor Bags - Over The Beach (OTB) The LV/ Side Armor Bags are modular in design and allow for the use of hard armor plates, soft armor inserts (with the addition of one of our Side Armor Bag Caps™), or both hard and soft armor at the same time. The bags were built with an offset MOLLE configuration which allows the user to wear the plates as far forward on the cummerbund as possible. Wearing your side armor as far forward allows for side plate to front plate contact, and closes a small gap in protection left over by traditional side armor systems currently on the market. Side Armor Bags are compatible with MOLLE cummerbunds and will not work with elastic cummerbunds. The OTB model of the LV/ Side Armor Bags are made with a mesh material, which allows for quick drainage of water and sea borne debris such a sand. They are also easily cleaned with fresh water after conducting operations in salt water. Plate Fitment: The LV/ Side Armor Bags are built with stretch materials to accommodate 6 x 6 inch hard armor plates up to 1 inch thick in a stand alone configuration. The use of soft armor inserts require the addition of our Side Armor Bag Caps™ which can then accommodate 5" x 7" to 5"x 14" rectangular soft armor inserts. NOTE: This component is an optional accessory to the Spiritus Systems Side Armor LV/119 Plate Carrier system. Soft Armor, the Plate carrier and all other components are sold separately.

Attributes

- Name: [SPIRITUS SYSTEMS OTB SIDE ARMOR BAGS - BLACK](#)
- Manufacturer: [SPIRITUS SYSTEMS](#)
- Product no.: 430104646

OTB Side Armor Bags Safety Instruction Guide

Introduction

Thank you for choosing the OTB Side Armor Bags by Spiritus Systems. These bags are designed to enhance load carriage and soldier survival during sea borne operations. This safety instruction guide provides essential information on the safe use, installation, and disposal of the OTB Side Armor Bags, ensuring compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure the product is used solely for its intended purpose as specified in the product description.
- Regularly inspect the OTB Side Armor Bags for signs of wear, damage, or degradation. Do not use if damaged.
- Keep the product away from extreme heat, fire, or corrosive materials.
- Ensure that the bags are compatible with your existing equipment, particularly MOLLE cummerbunds.
- Store the bags in a dry place to prevent mold and mildew growth.

Specific Safety Precautions for Use

- When using hard armor plates, ensure they are properly fitted and secured within the bags.
- Always wear the side armor as far forward as possible to maximize protection.
- Avoid using the bags with elastic cummerbunds, as they are not compatible.
- Ensure the mesh material is free from debris before and after operations to maintain optimal drainage and cleaning.
- If using soft armor inserts, always attach them with the appropriate Side Armor Bag Caps™.

Instructions for Installation and Usage

1. Installation of Hard Armor Plates:

- Open the OTB Side Armor Bag.
- Insert the hard armor plates into the designated compartments, ensuring they fit snugly.
- Secure the closure of the bag to keep the plates in place.

2. Installation of Soft Armor Inserts:

- Ensure you have the appropriate Side Armor Bag Caps™.
- Open the OTB Side Armor Bag.
- Insert the soft armor inserts into the designated compartments.
- Attach the Side Armor Bag Caps™ to secure the inserts in place.

3. Wearing the OTB Side Armor Bags:

- Adjust the MOLLE cummerbund to fit comfortably around your waist.
- Position the bags on your sides, ensuring they are aligned with your body.
- Securely fasten the cummerbund to hold the bags in place.

4. Cleaning and Maintenance:

- Rinse the OTB Side Armor Bags with fresh water after exposure to saltwater or debris.
- Allow the bags to air dry completely before storage.
- Regularly inspect the mesh material for any signs of damage or blockage.

Disposal Instructions

- Dispose of the OTB Side Armor Bags responsibly, following local regulations for textile and plastic waste.
- If the bags are damaged beyond repair, consider recycling materials where possible.
- Do not burn the bags as they may release harmful substances.

Contact Information for Further Support

For safety inquiries, product support, or to report unsafe products, please refer to the relevant authorities or your point of purchase. It is crucial to stay informed about any product recalls or safety updates through the EU's Safety Gate platform.

Thank you for your attention to these safety guidelines. Your safety and satisfaction are our top priorities.
