

BIPODS FOR TAVOR X95 RIFLE - TAVOR X95 8.2" FOREND BIPOD OLIVE DRAB GREEN

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

THE MOST RADICAL NEW-CONCEPT BIPOD EVER Balanced. Integrated. Accurate. The BLK LBL Bipod's innovative barrel-through design allows the rifle to sit 'in' the bipod, rather than 'on' it, with the center of rotation of the bipod effectively centered on the bore, making it inherently more stable. The result is a balanced rifle without the top-heavy tendencies that can come from large optics. The ball and socket joint provide fluid movement for improved target acquisition and accuracy. With 40 degrees of pan and 15 degrees of cant in each direction, adjusting leg length to level your scope is a thing of the past. BLK LBL was borne out of the question: Why is something as practical as a bipod still an impractical attachment? When not deployed, the legs of the BLK LBL Bipod easily fold to the rear, flush with the hand guard. This means they won't catch on clothing, gear or branches when you're on the move, and won't interfere when shooting off hand, from a barricade, or even when storing your rifle. A Passion for Precision With improved accuracy, lightweight construction, added stability and an expanded range of motion, the BLK LBL Bipod is the new pinnacle of bipod technology. Whether you're in law enforcement, the armed forces, a sport shooter or hunting in the great outdoors, this bipod gives you exactly what you're looking for; improved performance. Competitive & Sport Shooters: The BLK LBL Bipod provides improved accuracy and proven stability in all sport shooting competition situations, while the stowed bipod legs won't interfere when on the move or shooting offhand. Outdoorsmen & Hunters: The integrated design of the folding BLK LBL Bipod means no more catching your bipod legs on heavy brush or branches, your clothes or even your rifle case when stowing. Plus the added stability and accuracy means more precise shots, which means more accurate, more ethical kills. Law Enforcement & Armed Forces: Safety, stability and control. It applies to law enforcement, as well as the BLK LBL Bipod. Of course, improved accuracy means fewer rounds expended, which results in a quicker, safer resolution of situations where protecting citizens and ensuring public safety is of primary importance. Whether it's the stability only a bipod can provide from a set firing position, or easy handling in close quarters, the integrated design of the BLK LBL Bipod gives soldiers and their fireteam added confidence and effectiveness in nearly any situation. Durable aluminum handguard with the finest integrated bipod available. Made for the IWI X95 We make two lengths, SHORT for 16.5" barrels, and LONG for 18.5" barrels. Both the handguard and the legs are longer on the LONG version. SHORT - 209mm/8.2" long, 478g / 16.8 ounces, Legs extend from 6" to 9" LONG - 248mm/9.7" long, 526g/ 18.5 ounces, Legs extend from 8" to 11.5" 40 degrees of Cant rotation

Safety Instruction Guide for BIPODS FOR TAVOR X95 RIFLE

Introduction

Thank you for choosing the BIPODS FOR TAVOR X95 RIFLE. This guide provides essential safety information and instructions to ensure the safe and effective use of your bipod. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the bipod is compatible with your TAVOR X95 rifle model.
- Always handle firearms and accessories responsibly and in accordance with local laws and regulations.
- Keep the bipod and rifle out of reach of children and unauthorized users.
- Inspect the bipod before each use for any signs of damage or wear. Do not use if damaged.
- Use the bipod only for its intended purpose as described in this guide.
- Store the bipod in a secure location when not in use to prevent accidents.

Specific Safety Precautions for Use

- Always ensure that the rifle is unloaded before attaching or detaching the bipod.
- When using the bipod, ensure that the ground or surface is stable and level to prevent tipping.
- Be aware of your surroundings and ensure that your shooting area is clear of obstacles and bystanders.
- Avoid placing your hand or any body part in the path of the bipod legs during adjustment.
- When shooting from a barricade or other elevated position, ensure that the bipod is securely positioned to prevent slipping.

Instructions for Installation and Usage

1. Installation:

- Ensure the rifle is unloaded.
- Align the bipod attachment point with the mounting area on the handguard of the TAVOR X95.
- Secure the bipod using the provided mounting hardware, ensuring it is tightly fastened.
- Check that the bipod is stable and securely attached before use.

2. Usage:

- To deploy the bipod, grasp the legs and pull them downward until they lock into place.
- Adjust the leg length as needed to level the rifle. The legs extend from 6" to 9" for the SHORT version and from 8" to 11.5" for the LONG version.
- Use the ball and socket joint to pan and cant the rifle as needed for accurate aiming.
- After use, fold the bipod legs back to the flush position against the handguard for easy storage and transport.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations for aluminum and other materials.
- Do not dispose of the bipod in regular household waste. Check for recycling options in your area.

Contact Information for Further Support

For further inquiries, safety concerns, or support, please refer to the appropriate contact points provided by the

retailer or manufacturer.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the BIPODS FOR TAVOR X95 RIFLE.
