

BIPODS FOR TAVOR X95 RIFLE - TAVOR X95 9.7" FOREND BIPOD FLAT DARK EARTH

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

THE MOST RADICAL NEW-CONCEPT BIPOD EVER Balanced. Integrated. Accurate. The BLK LBL Bipod's innovative barrel-through design allows the rifle to sit 'in' the bipod, rather than 'on' it, with the center of rotation of the bipod effectively centered on the bore, making it inherently more stable. The result is a balanced rifle without the top-heavy tendencies that can come from large optics. The ball and socket joint provide fluid movement for improved target acquisition and accuracy. With 40 degrees of pan and 15 degrees of cant in each direction, adjusting leg length to level your scope is a thing of the past. BLK LBL was borne out of the question: Why is something as practical as a bipod still an impractical attachment? When not deployed, the legs of the BLK LBL Bipod easily fold to the rear, flush with the hand guard. This means they won't catch on clothing, gear or branches when you're on the move, and won't interfere when shooting off hand, from a barricade, or even when storing your rifle. A Passion for Precision With improved accuracy, lightweight construction, added stability and an expanded range of motion, the BLK LBL Bipod is the new pinnacle of bipod technology. Whether you're in law enforcement, the armed forces, a sport shooter or hunting in the great outdoors, this bipod gives you exactly what you're looking for; improved performance. Competitive & Sport Shooters: The BLK LBL Bipod provides improved accuracy and proven stability in all sport shooting competition situations, while the stowed bipod legs won't interfere when on the move or shooting offhand. Outdoorsmen & Hunters: The integrated design of the folding BLK LBL Bipod means no more catching your bipod legs on heavy brush or branches, your clothes or even your rifle case when stowing. Plus the added stability and accuracy means more precise shots, which means more accurate, more ethical kills. Law Enforcement & Armed Forces: Safety, stability and control. It applies to law enforcement, as well as the BLK LBL Bipod. Of course, improved accuracy means fewer rounds expended, which results in a quicker, safer resolution of situations where protecting citizens and ensuring public safety is of primary importance. Whether it's the stability only a bipod can provide from a set firing position, or easy handling in close quarters, the integrated design of the BLK LBL Bipod gives soldiers and their fireteam added confidence and effectiveness in nearly any situation. Durable aluminum handguard with the finest integrated bipod available. Made for the IWI X95 We make two lengths, SHORT for 16.5" barrels, and LONG for 18.5" barrels. Both the handguard and the legs are longer on the LONG version. SHORT - 209mm/8.2" long, 478g / 16.8 ounces, Legs extend from 6" to 9" LONG - 248mm/9.7" long, 526g/ 18.5 ounces, Legs extend from 8" to 11.5" 40 degrees of Cant rotation

Attributes

Safety Instruction Guide for BIPODS FOR TAVOR X95 RIFLE

Introduction

Thank you for choosing the BIPODS FOR TAVOR X95 RIFLE. This guide provides essential safety instructions to ensure the safe and effective use of your bipod. It is important to read and understand these guidelines before using the product.

General Safety Guidelines

- Ensure the bipod is compatible with your rifle model before use.
- Always inspect the bipod for any signs of damage or wear before each use.
- Use the bipod only for its intended purpose as a stabilizing support for your rifle.
- Keep the bipod and its components away from children and unauthorized users.
- Store the bipod in a safe place when not in use to prevent accidental injury.
- Follow all local laws and regulations regarding the use of firearms and accessories.

Specific Safety Precautions for Use

- **Stability:** Ensure the bipod is securely attached to the rifle before use. A loose bipod can lead to instability and accidents.
- **Surface Awareness:** When using the bipod outdoors, be aware of the terrain. Avoid using the bipod on unstable or slippery surfaces.
- **Leg Extension:** Adjust the legs of the bipod carefully. Ensure they are fully extended and locked in place to prevent collapse during use.
- **Shooting Position:** Always maintain a proper shooting stance when using the bipod. Avoid leaning too far forward or backward, which may affect balance.
- **Environmental Considerations:** Be cautious of environmental factors such as wind or rain that may affect stability and aim.

Instructions for Installation and Usage

1. Installation:

- Align the bipod with the mounting point on your TAVOR X95 rifle.
- Securely attach the bipod using the provided mounting hardware.
- Ensure that the bipod is firmly in place and does not wobble.

2. Usage:

- Deploy the bipod by extending the legs to the desired length.
- Adjust the cant and pan settings as needed for your shooting position.
- Always check that the legs are locked in place before taking a shot.
- When finished, fold the bipod legs back to their stowed position to avoid obstruction during movement.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations regarding electronic and metal waste.
- If the bipod is damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the bipod in regular household waste.

Contact Information for Further Support

For any safety inquiries or concerns regarding the bipod, please refer to the manufacturer's contact details provided with your product packaging or visit the manufacturer's website.

Thank you for following these safety guidelines. Your safety and the safety of others are our top priority. Enjoy your shooting experience with the BIPODS FOR TAVOR X95 RIFLE!
