

BIPODS FOR TAVOR X95 RIFLE - TAVOR X95 9.7" FOREND BIPOD OLIVE DRAB GREEN

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

THE MOST RADICAL NEW-CONCEPT BIPOD EVER Balanced. Integrated. Accurate. The BLK LBL Bipod's innovative barrel-through design allows the rifle to sit 'in' the bipod, rather than 'on' it, with the center of rotation of the bipod effectively centered on the bore, making it inherently more stable. The result is a balanced rifle without the top-heavy tendencies that can come from large optics. The ball and socket joint provide fluid movement for improved target acquisition and accuracy. With 40 degrees of pan and 15 degrees of cant in each direction, adjusting leg length to level your scope is a thing of the past. BLK LBL was borne out of the question: Why is something as practical as a bipod still an impractical attachment? When not deployed, the legs of the BLK LBL Bipod easily fold to the rear, flush with the hand guard. This means they won't catch on clothing, gear or branches when you're on the move, and won't interfere when shooting off hand, from a barricade, or even when storing your rifle. A Passion for Precision With improved accuracy, lightweight construction, added stability and an expanded range of motion, the BLK LBL Bipod is the new pinnacle of bipod technology. Whether you're in law enforcement, the armed forces, a sport shooter or hunting in the great outdoors, this bipod gives you exactly what you're looking for; improved performance. Competitive & Sport Shooters: The BLK LBL Bipod provides improved accuracy and proven stability in all sport shooting competition situations, while the stowed bipod legs won't interfere when on the move or shooting offhand. Outdoorsmen & Hunters: The integrated design of the folding BLK LBL Bipod means no more catching your bipod legs on heavy brush or branches, your clothes or even your rifle case when stowing. Plus the added stability and accuracy means more precise shots, which means more accurate, more ethical kills. Law Enforcement & Armed Forces: Safety, stability and control. It applies to law enforcement, as well as the BLK LBL Bipod. Of course, improved accuracy means fewer rounds expended, which results in a quicker, safer resolution of situations where protecting citizens and ensuring public safety is of primary importance. Whether it's the stability only a bipod can provide from a set firing position, or easy handling in close quarters, the integrated design of the BLK LBL Bipod gives soldiers and their fireteam added confidence and effectiveness in nearly any situation. Durable aluminum handguard with the finest integrated bipod available. Made for the IWI X95 We make two lengths, SHORT for 16.5" barrels, and LONG for 18.5" barrels. Both the handguard and the legs are longer on the LONG version. SHORT - 209mm/8.2" long, 478g / 16.8 ounces, Legs extend from 6" to 9" LONG - 248mm/9.7" long, 526g/ 18.5 ounces, Legs extend from 8" to 11.5" 40 degrees of Cant rotation

Safety Instruction Guide for BIPODS FOR TAVOR X95 RIFLE

Introduction

Thank you for choosing the BIPODS FOR TAVOR X95 RIFLE. This guide provides essential safety information and instructions to ensure the safe and effective use of your bipod. Please read this guide carefully before use.

General Safety Guidelines

- Always ensure the bipod is securely attached to the rifle before use.
- Check the bipod for any signs of damage or wear before each use.
- Use the bipod only for its intended purpose as a stabilizing device for the TAVOR X95 rifle.
- Keep the bipod and rifle out of reach of children and unauthorized users.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure the bipod legs are fully extended and locked in place before shooting.
- Avoid placing the bipod in areas where it may get caught on clothing, gear, or branches.
- When moving with the bipod deployed, be cautious of obstacles that may cause the bipod to snag.
- Use the bipod on stable ground to prevent tipping or instability.
- Be aware of your surroundings and ensure a safe shooting environment to avoid accidents.

Instructions for Installation and Usage

1. Installation:

- Align the bipod mounting bracket with the handguard of the TAVOR X95 rifle.
- Secure the bipod by tightening the mounting screws until snug. Do not overtighten.
- Ensure the bipod is firmly attached and does not wobble.

2. Usage:

- To deploy the bipod, pull the legs downward until they click into the extended position.
- Adjust the leg length as needed for optimal stability and comfort.
- To pan or cant the rifle, use the ball and socket joint to achieve the desired angle.
- After use, fold the bipod legs back to the rear until they are flush with the handguard.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations.
- Do not dispose of the bipod in household waste if it contains materials that are hazardous.
- Consider recycling the bipod if possible, or contact a local recycling center for guidance.

Contact Information for Further Support

For safety inquiries or support, please refer to the documentation provided with your product or contact the retailer from whom you purchased the bipod.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your BIPODS FOR TAVOR X95 RIFLE. Thank you for prioritizing safety in your shooting activities.
