

SUPER DUTY MOD1 5.56X45 NATO SEMI-AUTO RIFLE - SUPER DUTY MOD1 5.56X45 NATO 14.5" GEISSELE BBL NO MAG BLACK

[Firearms](#) > [Rifles](#) > [Semi-Auto](#)

Super Duty MOD1 Rifle 5.56MM Semi-Auto Rifle The Super Duty Mod1 Rifle improves upon the renowned Geissele Super Duty with the addition of a HUXWRX Flash Hider-QD 556 suppressor-ready muzzle device, an updated MK16 Super Modular Rail with press-fit stainless steel Quick Disconnect (QD) inserts, an A17 Grip that presents a more ergonomic grip angle, and a QD Sling Mount Endplate. The SD Mod1 updates several key components that ensure this high-end rifle will continue to offer the user unmatched accuracy, comfort, and performance. Geissele provides the latest in weapon technology available. This rifle chambered in 5.56mm features a nanoweapon-coated HUXWRX Flash Hider-QD muzzle device pinned and welded to an in-house Manganese Phosphate coated, Cold Hammer Forged, Chrome Lined, 1-7 twist barrel. Geissele barrels are High-Pressure Tested (HPT) and Magnetic Particle Inspected (MPI). The Geissele length gas system and Geissele Super Compact Gas Block (with bomb-proof installation) ensure reliability and optimal performance in extreme conditions and heavy use. At your fingertip and purpose-built for precision is the SSA-E X with Lightning Bow® trigger. The Nanocoated, two-stage trigger features a wide-body and bow shape that finds the perfect balance between a classic M4 trigger and a flat-body trigger. At the heart of this rifle is the Geissele Reliability Enhanced Bolt Carrier Group (BCG). Their Nanoweapon-coated carrier features a properly torqued and staked, Chrome Lined, Nanocoated gas key. The Cam Pin is machined from advanced, tool steel known as H13 which is also coated with Nanoweapon for maximum corrosion and wear resistance. The Reliability Enhanced Bolt Carrier Group features extended upper rails, providing greater stability and dramatically increasing feeding reliability. The Reliability Enhanced Bolt Carrier Group comes with the Geissele Stressproof Bolt. Made from Carpenter 158+, directly developed with Carpenter Steel metallurgists to create a material that is cleaner and has fewer impurities. This makes our Stressproof bolt stronger and more fatigue-resistant. The Geissele Stressproof bolt is also forged, not machined from barstock. This allows us to optimize the grain structure of the steel to yield a bolt capable of 5 times the life of a mil-spec bolt. Each bolt is rigorously inspected, high-pressure tested, mag particle inspected and Nanoweapon coated. The Super Duty lower is precision machined from 7075-T6 aluminum and features Geissele's Ultra Duty Lower Parts Kit featuring our Ambidextrous Super Configurable safety and Ultra Precision trigger guard. A high-quality mil-spec Geissele Buffer Tube with a Super-42 in H2 buffer ensures this rifle is properly tuned out of the box. Rounding up the package is a MK16 Super Modular Rail, that mates to the Super Duty Upper Receiver via a center aligning tab that removes any chance of rail rotation. The MK16 family of rails is renowned by operators for their performance and comfort. An Airborne Charging Handle ensures smooth and reliable operation. A Geissele Quick Disconnect (QD) Sling Mount Endplate allows for fast interfacing of slings quipped with QD pushbutton mounts to the lower receiver. This rugged and reliable attachment point is machined from Stainless Steel that is finished in Black Nitride and staked per MIL STD. The B5 Systems Enhanced Sopmod Stock completes the package and an Airborne Charging Handle ensures smooth and reliable operation. SPECIFICATIONS: CALIBER: 5.56MM COLOR: Black or DDC LOWER RECEIVER: Super Duty Lower Mil-Spec UPPER RECEIVER: Super Duty M4 Upper BCG: Reliability Enhanced

Safety Instruction Guide for SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE

Introduction

Thank you for choosing the SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE. This guide provides essential safety information to ensure the safe use of your firearm. Please read this guide thoroughly before using the rifle.

General Safety Guidelines

- Always treat every firearm as if it is loaded.
- Keep the muzzle pointed in a safe direction at all times.
- Be aware of your target and what lies beyond it.
- Keep your finger off the trigger until you are ready to shoot.
- Ensure the rifle is stored securely and out of reach of unauthorized users, particularly children.
- Regularly inspect the rifle for any signs of wear or damage.
- Only use ammunition that is specified for this firearm (5.56mm).
- Follow all local laws and regulations regarding firearm ownership and use.
- Attend a firearm safety course if you are inexperienced.

Specific Safety Precautions for Use

- Ensure the rifle is unloaded before cleaning or performing maintenance.
- Use hearing and eye protection when firing the rifle.
- Do not modify the rifle in any way that could affect its safety or performance.
- Be cautious of environmental conditions that may affect shooting, such as wind and visibility.
- Avoid using the rifle under the influence of drugs or alcohol.
- If the rifle fails to fire, keep the muzzle pointed downrange for at least 30 seconds before attempting to clear the malfunction.
- Be aware of the potential for ricochet when shooting at hard surfaces.

Instructions for Installation and Usage

Installation

- Ensure the rifle is unloaded before beginning installation.
- Attach the MK16 Super Modular Rail securely to the Super Duty Upper Receiver.
- Install the Geissele Quick Disconnect (QD) Sling Mount Endplate according to the manufacturer's instructions.
- Confirm that all components are properly secured and functioning.

Usage

- Load the rifle only in a safe and designated area.
- To load the rifle:
 - Open the action and insert a magazine loaded with 5.56mm ammunition.
 - Close the action and ensure it is locked in place.
- To fire:
 - Aim at your target.
 - Place your finger on the trigger only when ready to shoot.
 - Squeeze the trigger gently to fire.
- To unload the rifle:
 - Point the rifle in a safe direction.

- Open the action and remove the magazine.
- Visually and physically inspect the chamber to ensure it is clear.

Disposal Instructions

- Dispose of the rifle in accordance with local laws and regulations.
- If the rifle is no longer functional, contact a licensed firearms dealer for proper disposal.
- Do not dispose of ammunition in regular household waste; follow local regulations for hazardous materials.

Contact Information for Further Support

For any inquiries regarding the safety or performance of your SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE, please consult your local authorized dealer or manufacturer.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE. Always prioritize safety and responsibility when handling firearms.
