

SUPER DUTY MOD1 5.56X45 NATO SEMI-AUTO RIFLE - SUPER DUTY MOD1 5.56X45 NATO 16" GEISSELE BBL NO MAG DDC

[Firearms](#) > [Rifles](#) > [Semi-Auto](#)

Super Duty MOD1 Rifle 5.56MM Semi-Auto Rifle The Super Duty Mod1 Rifle improves upon the renowned Geissele Super Duty with the addition of a HUXWRX Flash Hider-QD 556 suppressor-ready muzzle device, an updated MK16 Super Modular Rail with press-fit stainless steel Quick Disconnect (QD) inserts, an A17 Grip that presents a more ergonomic grip angle, and a QD Sling Mount Endplate. The SD Mod1 updates several key components that ensure this high-end rifle will continue to offer the user unmatched accuracy, comfort, and performance. Geissele provides the latest in weapon technology available. This rifle chambered in 5.56mm features a nanoweapon-coated HUXWRX Flash Hider-QD muzzle device pinned and welded to an in-house Manganese Phosphate coated, Cold Hammer Forged, Chrome Lined, 1-7 twist barrel. Geissele barrels are High-Pressure Tested (HPT) and Magnetic Particle Inspected (MPI). The Geissele length gas system and Geissele Super Compact Gas Block (with bomb-proof installation) ensure reliability and optimal performance in extreme conditions and heavy use. At your fingertip and purpose-built for precision is the SSA-E X with Lightning Bow® trigger. The Nanocoated, two-stage trigger features a wide-body and bow shape that finds the perfect balance between a classic M4 trigger and a flat-body trigger. At the heart of this rifle is the Geissele Reliability Enhanced Bolt Carrier Group (BCG). Their Nanoweapon-coated carrier features a properly torqued and staked, Chrome Lined, Nanocoated gas key. The Cam Pin is machined from advanced, tool steel known as H13 which is also coated with Nanoweapon for maximum corrosion and wear resistance. The Reliability Enhanced Bolt Carrier Group features extended upper rails, providing greater stability and dramatically increasing feeding reliability. The Reliability Enhanced Bolt Carrier Group comes with the Geissele Stressproof Bolt. Made from Carpenter 158+, directly developed with Carpenter Steel metallurgists to create a material that is cleaner and has fewer impurities. This makes our Stressproof bolt stronger and more fatigue-resistant. The Geissele Stressproof bolt is also forged, not machined from barstock. This allows us to optimize the grain structure of the steel to yield a bolt capable of 5 times the life of a mil-spec bolt. Each bolt is rigorously inspected, high-pressure tested, mag particle inspected and Nanoweapon coated. The Super Duty lower is precision machined from 7075-T6 aluminum and features Geissele's Ultra Duty Lower Parts Kit featuring our Ambidextrous Super Configurable safety and Ultra Precision trigger guard. A high-quality mil-spec Geissele Buffer Tube with a Super-42 in H2 buffer ensures this rifle is properly tuned out of the box. Rounding up the package is a MK16 Super Modular Rail, that mates to the Super Duty Upper Receiver via a center aligning tab that removes any chance of rail rotation. The MK16 family of rails is renowned by operators for their performance and comfort. An Airborne Charging Handle ensures smooth and reliable operation. A Geissele Quick Disconnect (QD) Sling Mount Endplate allows for fast interfacing of slings quipped with QD pushbutton mounts to the lower receiver. This rugged and reliable attachment point is machined from Stainless Steel that is finished in Black Nitride and staked per MIL STD. The B5 Systems Enhanced Sopmod Stock completes the package and an Airborne Charging Handle ensures smooth and reliable operation. SPECIFICATIONS: CALIBER: 5.56MM COLOR: Black or DDC LOWER RECEIVER: Super Duty Lower Mil-Spec UPPER RECEIVER: Super Duty M4 Upper BCG: Reliability Enhanced

Safety Instruction Guide for SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE

Introduction

Thank you for choosing the SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE. This guide provides essential safety information to ensure safe and effective use of your firearm. Please read and understand all instructions before using the product.

General Safety Guidelines

- Always treat the firearm as if it is loaded.
- Keep the muzzle pointed in a safe direction at all times.
- Store the firearm securely and out of reach of children.
- Always use appropriate ear and eye protection when shooting.
- Do not consume alcohol or drugs before or during the use of the firearm.
- Be aware of your target and what lies beyond it.
- Ensure the firearm is clean and wellmaintained.
- Follow all local laws and regulations regarding firearm ownership and use.

Specific Safety Precautions for Use

- **Handling:**
 - Always keep your finger off the trigger until you are ready to fire.
 - Avoid pointing the firearm at anything you do not intend to shoot.
- **Shooting Environment:**
 - Use the firearm only in designated shooting ranges or safe outdoor areas.
 - Ensure the area is clear of people and obstacles before firing.
- **Maintenance:**
 - Regularly inspect the firearm for any signs of wear or damage.
 - Use only manufacturerapproved parts and accessories.
- **Ammunition:**
 - Use only the specified caliber (5.56mm) ammunition.
 - Store ammunition in a cool, dry place and away from children.

Instructions for Installation and Usage

- **Installation:**
 - Ensure the firearm is unloaded before any assembly or disassembly.
 - Follow the manufacturer's instructions for attaching accessories, such as the HUXWRX Flash HiderQD and the MK16 Super Modular Rail.
- **Usage:**
 - Load the firearm only when you are ready to shoot.
 - Follow the steps below for safe operation:
 1. Check that the firearm is on "safe" before loading.
 2. Insert a magazine into the magazine well.
 3. Pull the charging handle to chamber a round.
 4. Switch the safety to "fire" when ready to shoot.
 5. Aim at the target and squeeze the trigger gently.
 6. After firing, keep the muzzle pointed downrange and assess the situation.
 7. If necessary, reload or unload the firearm safely.
- **Cleaning and Maintenance:**
 - Clean the firearm after each use to ensure optimal performance.

- Use appropriate cleaning supplies and follow the manufacturer's guidelines.

Disposal Instructions

- Dispose of any unused or expired ammunition according to local regulations.
- Do not discard firearms in regular waste. Contact local authorities for safe disposal options.
- Ensure that all parts of the firearm are disposed of in a manner that prevents unauthorized access.

Contact Information for Further Support

For any inquiries or concerns regarding safety, usage, or maintenance of the SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE, please refer to the manufacturer's website or contact their customer service for assistance.

By adhering to these guidelines, you can help ensure a safe and enjoyable experience with your SUPER DUTY MOD1 5.56X45 NATO SEMIAUTO RIFLE. Always prioritize safety and responsibility when handling firearms.
