[Rifle Parts](#) > [Receiver Parts](#) > [Receivers](#) > [Upper Receivers](#)

Super Duty MOD1 Complete Upper 5.56x45 NATO The Geissele Super Duty MOD1 Upper (Complete) features the latest in weapon technology available exclusively from Geissele Automatics. This complete upper chambered in 5.56mm features a nanoweapon-coated HUXWRX Flash Hider-QD muzzle device mounted to a Manganese Phosphate coated, CHF, Chrome Lined 1-7 twist barrel. Geissele barrels are precision machined and cold hammer forged utilizing the highest quality materials at their state of the art facility in North Wales, PA. The carbine length gas tube and Geissele Super Compact Gas Block with bomb-proof installation ensures reliability and optimal performance in extreme conditions. Included is a brand new, Super Modular Rail MK16 that mates to the upper via a center aligning tab removing any chance of rail rotation. This rail is a variant of the SMR MK16, currently fielded by USASOC and renowned by operators for their performance and comfort. Also included is the Geissele Reliability Enhanced Bolt Carrier Group. This Nanoweapon coated BCG features a properly torqued and staked, chrome lined gas key. The Cam Pin is machined from advanced, medical steel known as H13 which is also coated with Nanoweapon for maximum corrosion and wear resistance. The Geissele Reliability Enhanced Bolt Carrier Group also features extended upper rails, providing greater stability and dramatically increasing feeding reliability. The Geissele Reliability Enhanced Bolt Carrier Group comes with the Geissele Stressproof Bolt. Made from Carpenter 158+, directly developed with Carpenter Steel metallurgists to create a material that is cleaner and has less impurities. This makes our Stressproof bolt stronger and more fatigue resistant. The Geissele Stressproof bolt is also forged, not machined from barstock. This allows us to optimize the grain structure of the steel to yield a bolt capable of 5 times the life of a mil-spec bolt. Each bolt is rigorously inspected, high pressure tested, mag particle inspected and Nanoweapon coated. All of these technologies and advancements combine to bring to market a true next-gen upper for the AR-15 platform. The Super Duty Complete Upper from Geissele Automatics offers unmatched performance, accuracy and reliability. Safety Instruction Guide for the AR15 SUPER DUTY MOD1 5.56X45 NATO COMPLETE UPPER RECEIVER

Introduction

Thank you for choosing the AR15 SUPER DUTY MOD1 Complete Upper Receiver from Geissele Automatics. This guide provides essential safety instructions to ensure the safe use and handling of your product. Please read this guide carefully to understand the safety guidelines, installation instructions, and proper usage of the upper receiver.

General Safety Guidelines

- Always handle firearms with care and assume they are loaded until verified otherwise.
- Store the upper receiver and all firearm components in a secure location, away from children and unauthorized users.
- Use protective gear, such as eye and ear protection, when operating firearms.
- Regularly inspect your upper receiver for any signs of wear or damage before use.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Ensure that you are in a safe environment when using or testing your upper receiver.
- Be aware of your surroundings and ensure a clear line of sight before discharging a firearm.

Specific Safety Precautions for Use

- Do not modify the upper receiver or any of its components without consulting a qualified gunsmith.
- Ensure that the ammunition used is compatible with the 5.56x45 NATO caliber.
- Avoid using damaged or defective ammunition, as it may cause malfunctions or accidents.
- Always verify that the firearm is unloaded before performing maintenance or cleaning.
- Do not point the firearm at anything you do not intend to shoot.
- Keep your finger off the trigger until you are ready to shoot.
- Be cautious of the muzzle direction at all times to prevent accidental discharge.

Instructions for Installation and Usage

Installation

1. **Preparation:** Ensure that the firearm is unloaded and pointed in a safe direction.
2. **Attach the Upper Receiver:** Align the upper receiver with the lower receiver. Slide it into place ensuring that the takedown pins are properly engaged.
3. **Secure the Upper:** Push the takedown pins down to secure the upper receiver to the lower receiver. Ensure that it is locked in place.
4. **Install the Charging Handle:** Insert the Airborne Charging Handle into the designated slot of the upper receiver.
5. **Check Functionality:** Perform a function check to ensure that all components are operating correctly.

Usage

- Load the firearm only when you are ready to shoot.
- Fire in a controlled and safe manner, adhering to all local regulations.
- After use, unload the firearm and perform a thorough inspection of the upper receiver and its components.

Disposal Instructions

- Dispose of any damaged or nonfunctional components in accordance with local regulations.
- Ensure that all ammunition is disposed of safely and responsibly.
- Contact your local waste management authority for guidance on the proper disposal of firearm components.

Contact Information for Further Support
