

DAKA® GRID ORGANIZER FOR PLANO™! ALL WEATHER 2"! 36 IN. - DAKA GRID ORGANIZER FOR PLANO ALL WEATHER 2 36"

Magpul's DAKA GRID Organizer is a fully customizable drop-in organizational solution that secures and protects your important equipment when it's stored or transported in your existing hard case. Specifically designed to fit Plano™ 36" All Weather 2™ and Rusticator™ gun cases, the GRID Organizer is completely reconfigurable to meet your storage needs. Individual Expanded Polypropylene (EPP) Panels and Blocks nest together securely to maximize protection, versatility, and ease-of-use. They can be organized to brace and immobilize rifles, optics, ammunition, accessories, and other gear, and they can be quickly removed and reinstalled for your next loadout. The lightweight GRID system uses compression to immobilize and compartmentalize your gear, firmly holding it in place and providing advanced protection during transport. The result is less movement and better impact resistance for your gear than you'll get from current open cell foam options that can let your gear slide around inside your case during transport. Also, the GRID's EPP make up doesn't absorb contaminants like open cell foam does, providing resistance to liquid and chemical intrusion and mitigating contamination of your gear. Cleaning up dirt, chemicals, and liquids is easy with just a damp cloth. Offering numerous advantages over traditional foam and expensive laser-cut inserts, the GRID provides intuitive, modular organization at your fingertips. It's reconfigurable without tools, so it can be adapted to your loadout in seconds. If you're carrying wider or taller equipment, a center GRID Panel can also be removed to open up space for objects approximately 4.25" inches wide. If you end up needing to cut a Panel to create a unique cavity for wider gear, the EPP cuts smoothly and doesn't lose its strength or ability to protect your important equipment. For unique equipment loading techniques, see Magpul's Getting The Best Fit video and others in the Resources tab. Simple to configure, stronger than foam, and versatile enough to change with every loadout, the DAKA GRID Organizer lets you use every inch of your case to store and securely carry your gear the way you want. Includes GRID base Panels, six triple Blocks, six double Blocks, and replacement base foam. EASILY ADDED TO POPULAR PLANO 36" AW2 AND RUSTRICTOR CASES EPP Panels and Blocks quickly replace current internal setup GRID system holds your gear securely and protects better than foam sheets Not just for firearms; can be used for all types of gear LIGHTWEIGHT AND EASY TO USE EPP construction is lighter and stronger than traditional foam Endlessly customizable and no tools required Unique gear loadouts set up in seconds BETTER PROTECTION THAN YOUR OLD FOAM GRID is stronger than open cell foam, holds your gear in place, and protects better from impacts Resists absorbing liquids and chemicals and easy to clean with a damp cloth Good temperature stability VERSATILE AND ENDLESSLY CUSTOMIZABLE GRID Block arrangement lets you maximize the use of all of your space Ability to reconfigure the GRID means no cutting or plucking of foam that leaves you with one fixed configuration

Guide de Sécurité pour l'Organiseur DAKA GRID de Magpul

Introduction

Merci d'avoir choisi l'organiseur DAKA GRID de Magpul. Ce produit est conçu pour sécuriser et organiser ton équipement lorsque tu l'utilises dans ta mallette rigide. Afin de garantir une utilisation sécurisée et efficace, il est essentiel de suivre les directives de sécurité présentées dans ce guide.

Directives Générales de Sécurité

- Assure-toi que l'organiseur est adapté à ta mallette Plano 36" All Weather 2™ ou Rustictor™.
- Vérifie régulièrement l'état de l'organiseur pour détecter tout dommage ou usure.
- Ne laisse pas l'organiseur à la portée des enfants sans surveillance.
- Évite d'utiliser l'organiseur pour des équipements non prévus, comme des objets lourds ou tranchants qui pourraient endommager le produit ou causer des blessures.

Précautions de Sécurité Spécifiques à l'Utilisation

- Lorsque tu reconfigures l'organiseur, assure-toi que tous les panneaux et blocs sont correctement emboîtés pour éviter tout mouvement de ton équipement.
- Ne surcharge pas l'organiseur. Respecte les limites de poids et de dimensions pour garantir une protection optimale.
- Utilise un chiffon humide pour nettoyer toute saleté ou produit chimique. Évite les nettoyeurs abrasifs qui pourraient endommager le matériau EPP.
- Ne coupe pas le panneau GRID sans précaution. Si tu dois le faire, assure-toi d'utiliser des outils appropriés et de porter des gants de protection.

Instructions pour l'Installation et l'Utilisation

1. Installation de l'Organiseur:

- Ouvre ta mallette Plano et retire l'ancien système de rangement, le cas échéant.
- Place les panneaux de base GRID dans le fond de la mallette.
- Emboîte les blocs triples et doubles selon tes besoins de stockage.
- Assure-toi que tout est bien fixé et que l'organiseur est stable.

2. Utilisation de l'Organiseur:

- Range ton équipement dans les espaces désignés, en veillant à ce qu'il soit bien maintenu et immobilisé.
- Pour des objets plus larges, retire le panneau central si nécessaire pour libérer de l'espace.
- Vérifie régulièrement que l'équipement est bien en place avant de transporter la mallette.

Instructions d'Élimination

- Lorsque l'organiseur DAKA GRID n'est plus utilisable, élimine-le conformément aux réglementations locales en matière de déchets.
- Le matériau EPP est recyclable. Renseigne-toi sur les options de recyclage disponibles dans ta région.

Informations de Contact pour un Support Supplémentaire

Pour toute question ou préoccupation concernant la sécurité de l'organiseur DAKA GRID, consulte les ressources disponibles sur le site Web de Magpul ou contacte leur service client.

En suivant ces directives, tu peux t'assurer que l'organiseur DAKA GRID est utilisé de manière sûre et efficace, maximisant ainsi la protection de ton équipement.
