

375 CALIBER (0.375") SINGLE FEED MTAC BULLETS - CUTTING EDGE BULLETS MTAC 375 CAL (0.375") SOLID COPPER SINGLE FEED 427GR 50/BOX

[Reloading](#) > [Bullets](#) > [Rifle Bullets](#)

The Cutting Edge MTAC line of bullets are machined out of lead free solid copper bar stock on a CNC swiss lathe. These are a high BC, solid bullet designed exclusively for target use at all ranges. A unique feature of this bullet is their patented SealTite™ band which is a band slightly larger than caliber diameter around the bullet which was designed to eliminate fliers by preventing gas blow-by. The SealTite™ band also decreases copper fouling which is typically associated with mono metal bullets. The required twist rate for this bullet is 1:11" or faster. Due to their length, these MTAC bullets are designed to be single fed.

Attributes

- Name: [CUTTING EDGE BULLETS MTAC 375 CAL \(0.375"\) SOLID COPPER SINGLE FEED 427GR 50/BOX](#)
- Manufacturer: [CUTTING EDGE BULLETS](#)
- Product no.: 430110685
- Mfr. No.: MTAC 375 427 MAX
- Ballistic Coefficient (G1): 0.940
- Ballistic Coefficient (G7): 0.481
- Brand Style: Match Tactical
- Bullet Style: Copper Solid
- Caliber: 375 Caliber
- Diameter (in): 0.375
- Grain: 427
- Quantity: 50
- Delivery weight: 1.383kg
- UPC: 812191022354

Safety Instruction Guide for 375 CALIBER (0.375") SINGLE FEED MTAC BULLETS

Introduction

Thank you for choosing the 375 Caliber (0.375") Single Feed MTAC Bullets from Cutting Edge Bullets. This guide provides essential safety instructions for the proper handling, use, and disposal of these bullets to ensure your safety and compliance with EU regulations.

General Safety Guidelines

- Always handle ammunition with care and respect.
- Store bullets in a cool, dry place, away from direct sunlight and moisture.
- Keep bullets out of reach of children and unauthorized users.
- Use protective gear, such as safety glasses and gloves, when handling bullets.
- Be aware of your surroundings and ensure a safe shooting environment before use.
- Follow all local laws and regulations regarding ammunition and firearms.

Specific Safety Precautions for Use

- Ensure your firearm is compatible with 375 Caliber (0.375") bullets before use.
- Check for any visible damage to the bullets before loading them into your firearm.
- Avoid using damaged or deformed bullets, as they may cause malfunctions or accidents.
- Always follow the manufacturer's recommended twist rate of 1:11" or faster for optimal performance.
- Do not exceed the recommended load specifications for your firearm.
- If you experience any misfires or malfunctions, follow proper procedures for handling such incidents.
- Report any unsafe conditions or incidents to the appropriate authorities.

Instructions for Installation and Usage

1. Loading Bullets:

- Ensure your firearm is unloaded before attempting to load bullets.
- Carefully insert the 375 Caliber bullet into the chamber, ensuring it is seated correctly.
- Follow your firearm's specific loading instructions for best practices.

2. Shooting:

- Always point the firearm in a safe direction.
- Ensure the shooting area is clear of people and animals.
- Use appropriate ear and eye protection while shooting.
- Fire only in designated shooting areas and comply with all local regulations.

3. Storage:

- Store bullets in their original packaging or a secure container designed for ammunition.
- Label storage containers clearly to avoid confusion with other items.
- Regularly check stored ammunition for signs of deterioration or damage.

Disposal Instructions

- Dispose of any unused or damaged bullets in accordance with local regulations.
- Do not throw bullets in regular household waste.

- Contact your local waste management authority for guidance on proper disposal methods.
- Always ensure that bullets are rendered safe before disposal.

Contact Information for Further Support

For any safety inquiries or concerns regarding the 375 Caliber (0.375") Single Feed MTAC Bullets, please contact the relevant authorities or your local retailer for assistance.

By following these guidelines, you will help ensure a safe and enjoyable experience with your Cutting Edge Bullets products. Always prioritize safety and be responsible when handling ammunition.
