SPB Muzzle Brake Safety Instructions

Introduction

Thank you for choosing the SPB Muzzle Brake from Rearden Manufacturing Group LLC. This product is designed to enhance your shooting experience while ensuring safety and performance. Please read this safety instruction guide carefully to understand how to use and maintain your muzzle brake properly.

General Safety Guidelines

- Always ensure that the muzzle brake is installed correctly to avoid accidents.
- Regularly inspect the muzzle brake for any signs of wear or damage.
- Use only compatible firearms and ammunition with the SPB Muzzle Brake.
- Keep the muzzle brake and all shooting equipment out of reach of children.
- Always wear appropriate eye and ear protection when using firearms.
- Be aware of your surroundings and ensure a safe shooting environment.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that all surfaces are clean before installation to achieve a proper seal.
- Use an alignment rod during installation to verify that the entire system is set up correctly.
- Torque the muzzle device to approximately 1525 ft lbs to ensure it is securely attached.
- Confirm that the muzzle device is square against the shoulder before use.
- When attaching the silencer, ensure that the threads and tapers are clean.
- Torque the suppressor to 10 ft lbs to ensure proper attachment.
- Avoid using the muzzle brake on Q cans, as this may void your warranty.
- Regularly check for alignment and make adjustments as necessary.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench and alignment rod.
- Ensure your workspace is clean and free of debris.

2. Installation:

- Clean the barrel surface where the muzzle brake will be attached.
- Align the muzzle brake with the barrel using the alignment rod.
- Torque the muzzle brake to 1525 ft lbs to secure it in place.
- Apply Rockset to the threads to ensure a secure bond with the barrel.

3. Attaching the Silencer:

- Clean the threads and tapers of both the muzzle device and the silencer.
- Carefully screw the silencer onto the muzzle device.
- Torque the suppressor to 10 ft lbs to ensure a secure fit.

4. Final Checks:

- Inspect the installation to ensure everything is aligned and secure.
- Perform a visual check for any signs of damage or wear.
- Test the setup in a safe environment before regular use.

Disposal Instructions

- Dispose of the SPB Muzzle Brake in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Contact your local waste disposal authority for guidance on proper disposal methods.

Contact Information for Further Support
