Safety Instruction Guide for L.E. Wilson Single Stage Reloading Press

Introduction

Thank you for choosing the L.E. Wilson Single Stage Reloading Press. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your reloading press. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the reloading press is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when operating the press.
- Keep the workspace clean and organized to prevent accidents.
- Store the reloading press in a dry, safe place when not in use.
- Always supervise children and vulnerable individuals around the press.
- Regularly inspect the press for any damage or wear before each use.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Do not exceed the manufacturer's recommended load limits.
- Use only compatible 7/8" dies and shellholders.
- Ensure that the press is securely mounted to a stable workbench before use.
- Avoid placing hands or fingers near moving parts while the press is in operation.
- Never attempt to modify or alter the press in any way.
- If you experience any unusual sounds or resistance while operating the press, stop using it immediately and inspect for issues.
- Always keep the area around the press free from distractions and potential hazards.

Instructions for Installation and Usage

Installation

1. **Choose a Suitable Location:** Select a sturdy workbench or table that can support the weight of the press and the materials used.
2. **Mounting the Press:**
 - Position the press on the workbench.
 - Align the four large mounting holes with the surface of the bench.
 - Securely fasten the press using appropriate bolts or screws to ensure stability.
3. **Check Alignment:** Ensure that the press is level and aligned properly before use.

Usage

1. **Set Up the Press:**
 - Insert the desired 7/8" die into the press.
 - Ensure the die is tightened securely.
 - Attach the appropriate shellholder for the cartridge you are reloading.
2. **Adjust the Handle:**
 - Adjust the handle for either right or lefthand use according to your preference.
3. **Reloading Process:**
 - Follow the reloading instructions specific to the type of ammunition you are using.
 - Always check the primer collection cavity and empty it as needed to prevent jams.

4. PostUse Safety:

- After completing your reloading session, clean the press and remove any debris.
- Store the press and materials in a safe location.

Disposal Instructions

- When disposing of the reloading press, follow local regulations for the disposal of metal and aluminum products.
- Do not dispose of the press in regular household waste.
- Consider recycling the materials if possible.

Contact Information for Further Support

For any questions or concerns regarding safety or operation of the L.E. Wilson Single Stage Reloading Press, please refer to the manufacturer's contact information provided with your product packaging or visit the manufacturer's website for further assistance.

Conclusion

By following the safety instructions outlined in this guide, you can ensure a safe and effective reloading experience. Always prioritize safety and be aware of your surroundings while using the L.E. Wilson Single Stage Reloading Press. Thank you for your attention, and happy reloading!
