The result is a triumph of compact firearm engineering that stands in a class of its own. Homologation for Maximum Versatility What sets Tyrant's Snub Nose module apart is its carefully engineered homologation. While providing the extended handle length of the SIG SAUER P365 X-Macro, essential for the 17-round magazine, the barrel length stays true to the original P365's 3.1 inches. This ensures that the module is compatible with existing 3.1-inch holsters, offering a seamless transition without requiring additional accessories. Do you have the need for a slide safety? No problem, this grip module for the P365 allows for simple cut out, pre drafted, to be compatible with all Sig Sauer P365 manual safeties.
