

# DUAL-LED CEILING KIT LIGHTING SYSTEM - INLINE FABRICATION

## DUAL-LED CEILING KIT LIGHTING SYSTEM

[Reloading](#) > [Reloading Presses](#) > [Reloading Press Accessories](#)

Complete LED kit with "Ceiling" option. Perfect for the RCBS Pro2000, RCBS Rockchucker, LEE loadmaster, Hornady LNL AP, and many more. This Patent Pending kit includes, power supply with 48" long cord, on/off switch, "Y" adapter, (1) 4" LED w\quick connect, (1) 2" LED w\quick connect, prep kit and wire routing anchors. This kit is for presses (Like the Hornady Lock N Load and the Dillon 650) that have enough room at "ceiling" to install the 2" light in a downward fashion to flood the shellplate with even more light. Plenty of bright, white light with-out being too much.

# DUALLED CEILING KIT LIGHTING SYSTEM Safety Instructions

## Introduction

Thank you for choosing the DUALLED CEILING KIT LIGHTING SYSTEM by INLINE FABRICATION. This guide provides essential safety instructions and information to ensure the safe and effective use of your lighting system. Please read this guide carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always follow the installation and usage instructions provided in this manual.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of damage or wear.
- Do not use the product if it is damaged or malfunctioning.
- Avoid exposure to moisture or extreme temperatures.
- Use only the power supply included with the kit to prevent electrical hazards.
- In case of an emergency, disconnect the power supply immediately.

## Specific Safety Precautions for Use

- Avoid looking directly at the LED lights while they are on to prevent eye strain.
- Do not cover the lights or block airflow, as this may cause overheating.
- Ensure that the installation area is free from flammable materials.
- Do not attempt to modify or repair the product yourself.
- Always turn off the lights and disconnect the power supply when performing maintenance or installation.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all components from the kit, including the power supply, on/off switch, "Y" adapter, LED lights, prep kit, and wire routing anchors.
- Ensure that you have the necessary tools for installation, such as a screwdriver and wire cutters.

### 2. Installation Steps

- Select a suitable location for the installation where there is enough room to mount the lights.
- Use the wire routing anchors to secure the wires neatly and avoid any hazards.
- Connect the "Y" adapter to the power supply, ensuring a secure fit.
- Attach the 4" LED light to one end of the "Y" adapter and the 2" LED light to the other end.
- Position the 2" LED light in a downward direction to effectively illuminate the shellplate.
- Use the on/off switch to control the lights. Ensure it is easily accessible.

### 3. Usage

- Once installed, turn on the lights using the on/off switch.
- Adjust the positioning of the lights if necessary to achieve the desired lighting effect.
- Regularly check the lights to ensure they are functioning correctly.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for electronic waste.
- Do not dispose of the product in regular household waste.
- Contact your local waste management facility for specific disposal instructions.

## **Contact Information for Further Support**

For any inquiries regarding safety, installation, or usage, please refer to the contact information provided in the product packaging or visit the manufacturer's website.

Please ensure that you follow these safety instructions to ensure a safe and enjoyable experience with your DUALLED CEILING KIT LIGHTING SYSTEM.
