

SAFETY LEVER/SELECTOR FOR SIG SAUER P365 - SAFETY SELECTOR FOR SIG SAUER P365 - BLACK

SAFETY LEVER/SELECTOR FOR SIG SAUER P365 If you own a Sig P365, you probably know about the multiple issues with the factory safety selector. Put those behind you with Tyrant CNC's precision engineered P365 Safety Lever. Made from 17-4 heat-treated stainless steel and finished with a rugged PVD coating, this lever is built to withstand the rigors of consistent use while resisting corrosion and wear. Its extended arms are 2mm longer than the OEM design, featuring grooved serrations for a non-slip grip under adverse conditions. Tyrant's complete assembly kit is sold with a new stainless steel safety plunger and spring, ensuring a seamless installation process without the need for additional parts. Compatible with the Sig Sauer P365, P365X, P365XL, P365 Macro, and Tyrant CNC P365 grip modules in both 9mm and .380 Auto calibers, this safety lever enhances your firearm's ergonomics for unmatched shooting precision. Every P365 FCU from Sig Sauer has the option to add a safety selector, even if the safety selector version of the firearm was not purchased originally. The space for a safety selector remains in the FCU and can be added using this kit. Heat-Treated Stainless Steel for Maximum Durability Crafted from 17-4 heat-treated stainless steel and finished with a premium PVD coating, Tyrant's P365 manual thumb safety lever is built to resist wear and tear from constant use. Their heat treatment process strengthens the metal's wear resistance, so it performs efficiently when you need it most. Its PVD coating adds an extra layer of corrosion resistance for peak performance in all environments—from the humidity of concealed carry to the grit of the shooting range. Complete Kit with Plunger and Spring Included Tyrant's Sig P365 manual safety lever ships with a stainless steel safety plunger and spring, providing a complete assembly kit right out of the box. No need to mix and match parts or worry about compatibility issues. Each component is precision-engineered to work together, enhancing your firearm's performance from the moment it's installed. Extended Arms for Enhanced Control and Safety Tyrant's safety selector arms extend 2mm past the OEM design, adding a more responsive engagement. This slight extension makes a huge difference in high-stress situations where every millisecond counts. The grooved serrations provide a non-slip surface, ensuring positive engagement even with gloved hands or in wet conditions. Compatible with 9mm & .380 Auto Calibers As an experienced shooter, versatility is key. This safety lever is compatible with a range of P365 models including the P365, P365X, P365XL, P365 Macro, and even Tyrant CNC P365 grip modules. Whether you're running 9mm or .380 Auto, this lever integrates flawlessly with your firearm, maintaining the reliability you expect from your Sig Sauer. It's a drop-in upgrade, ensuring a perfect fit without gunsmithing.

Sicherheitshinweise für den Sicherheitshebel/Selector für Sig Sauer P365

Einleitung

Herzlichen Glückwunsch zu deinem Kauf des Sicherheitshebels/Selectors von Tyrant CNC für die Sig Sauer P365. Dieser Leitfaden bietet wichtige Informationen zur sicheren Verwendung, Installation und Entsorgung des Produkts, um sicherzustellen, dass du die bestmögliche Erfahrung machst.

Allgemeine Sicherheitsrichtlinien

- Stelle sicher, dass du die Bedienungsanleitung deiner Waffe vollständig gelesen und verstanden hast, bevor du den Sicherheitshebel installierst.
- Verwende das Produkt nur gemäß den Anweisungen des Herstellers.
- Halte das Produkt außerhalb der Reichweite von Kindern und schütze es vor unsachgemäßer Verwendung.
- Überprüfe regelmäßig den Zustand des Sicherheitshebels, um sicherzustellen, dass er ordnungsgemäß funktioniert.
- Melde unsichere Produkte oder Unfälle den zuständigen Behörden.

Spezifische Sicherheitsvorkehrungen für die Verwendung

- Verwende den Sicherheitshebel nur mit den kompatiblen Modellen: Sig Sauer P365, P365X, P365XL, P365 Macro und Tyrant CNC P365 Griffmodulen in den Kalibern 9 mm und .380 Auto.
- Achte darauf, dass der Sicherheitshebel während des Gebrauchs nicht blockiert wird.
- Trage beim Umgang mit der Waffe immer geeignete Schutzausrüstung, insbesondere Gehörschutz und Schutzbrille.
- Halte die Waffe immer in einem sicheren Zustand, wenn sie nicht verwendet wird, und halte den Finger vom Abzug, bis du bereit bist zu schießen.

Anweisungen zur Installation und Verwendung

Installation

1. **Vorbereitung:** Stelle sicher, dass die Waffe entladen ist und sich in einem sicheren Zustand befindet.
2. **Montage:**
 - Entferne den alten Sicherheitshebel gemäß der Bedienungsanleitung deiner Waffe.
 - Verwende das mitgelieferte Montagekit, einschließlich des neuen Sicherheitsplungers aus Edelstahl und der Feder.
 - Installiere den neuen Sicherheitshebel gemäß den Anweisungen des Herstellers.
3. **Überprüfung:** Teste den Sicherheitshebel nach der Installation, um sicherzustellen, dass er ordnungsgemäß funktioniert.

Verwendung

- Stelle sicher, dass du den Sicherheitshebel bei Bedarf korrekt betätigst.
- Nutze die geriffelten Rillen für einen rutschfesten Griff, insbesondere unter widrigen Bedingungen.
- Sei dir bewusst, dass die verlängerten Arme des Hebels ein reaktionsschnelleres Engagement ermöglichen.

Entsorgungsanweisungen

- Entsorge das Produkt gemäß den örtlichen Vorschriften für Elektroschrott und Metallabfälle.
- Stelle sicher, dass alle Teile des Produkts ordnungsgemäß entsorgt werden, um Umweltschäden zu vermeiden.

Kontaktinformationen für weitere Unterstützung

Für Fragen oder Unterstützung zu deinem Sicherheitshebel/Selector von Tyrant CNC, wende dich bitte an den Hersteller oder den Einzelhändler, bei dem du das Produkt erworben hast.

Bitte beachte, dass die Sicherheit bei der Verwendung von Feuerwaffen oberste Priorität hat. Halte dich an alle Sicherheitsrichtlinien und vorschritten, um eine sichere und verantwortungsvolle Nutzung zu gewährleisten.

Safety Instructions for the Safety Lever/Selector for Sig Sauer P365

Introduction

Thank you for choosing the Safety Lever/Selector for your Sig Sauer P365. This product is designed to enhance the safety and ergonomics of your firearm. Please read and follow these safety instructions carefully to ensure safe usage and optimal performance.

General Safety Guidelines

- Ensure that the firearm is always treated as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and safety lever in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the safety lever and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Always wear appropriate eye and ear protection when handling firearms.
- Be aware of your surroundings and ensure a clear backdrop when shooting.

Specific Safety Precautions for Use

- The Safety Lever/Selector is designed for use with the Sig Sauer P365. Do not attempt to use it with other firearm models.
- Ensure that the safety lever is properly installed and securely fastened before using the firearm.
- Do not modify the safety lever or any components of the firearm, as this may compromise safety and reliability.
- Always engage the safety lever when the firearm is not in use.
- If you experience any malfunctions or irregularities with the safety lever or firearm, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure that the firearm is unloaded and the magazine is removed.
- Gather all necessary tools, including the provided assembly kit.

2. Installation Steps

- Remove the factory safety selector from the Sig Sauer P365 by following the manufacturer's instructions.
- Take the new Safety Lever/Selector and align it with the designated space in the Fire Control Unit (FCU).
- Insert the stainless steel safety plunger and spring as included in the assembly kit.
- Secure the safety lever in place, ensuring it is properly seated and functions smoothly.

3. PostInstallation Checks

- After installation, conduct a function check to ensure the safety lever operates correctly.
- Verify that the safety engages and disengages smoothly without resistance.

4. Usage

- When ready to shoot, disengage the safety lever.
- After shooting, engage the safety lever before storing the firearm.

Disposal Instructions

- Dispose of the Safety Lever/Selector in accordance with local regulations regarding metal and firearm accessories.
- Do not dispose of the safety lever in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Safety Lever/Selector for Sig Sauer P365, please consult the manufacturer or a qualified firearms expert. Ensure you have the product information ready for reference.

By following these safety instructions, you can ensure safe and effective use of your Safety Lever/Selector for the Sig Sauer P365. Always prioritize safety and responsible firearm handling.
