

SAFETY LEVER/SELECTOR FOR SIG SAUER P365 - SAFETY SELECTOR FOR SIG SAUER P365 - GOLD

SAFETY LEVER/SELECTOR FOR SIG SAUER P365 If you own a Sig P365, you probably know about the multiple issues with the factory safety selector. Put those behind you with Tyrant CNC's precision engineered P365 Safety Lever. Made from 17-4 heat-treated stainless steel and finished with a rugged PVD coating, this lever is built to withstand the rigors of consistent use while resisting corrosion and wear. Its extended arms are 2mm longer than the OEM design, featuring grooved serrations for a non-slip grip under adverse conditions. Tyrant's complete assembly kit is sold with a new stainless steel safety plunger and spring, ensuring a seamless installation process without the need for additional parts. Compatible with the Sig Sauer P365, P365X, P365XL, P365 Macro, and Tyrant CNC P365 grip modules in both 9mm and .380 Auto calibers, this safety lever enhances your firearm's ergonomics for unmatched shooting precision. Every P365 FCU from Sig Sauer has the option to add a safety selector, even if the safety selector version of the firearm was not purchased originally. The space for a safety selector remains in the FCU and can be added using this kit. Heat-Treated Stainless Steel for Maximum Durability Crafted from 17-4 heat-treated stainless steel and finished with a premium PVD coating, Tyrant's P365 manual thumb safety lever is built to resist wear and tear from constant use. Their heat treatment process strengthens the metal's wear resistance, so it performs efficiently when you need it most. Its PVD coating adds an extra layer of corrosion resistance for peak performance in all environments—from the humidity of concealed carry to the grit of the shooting range. Complete Kit with Plunger and Spring Included Tyrant's Sig P365 manual safety lever ships with a stainless steel safety plunger and spring, providing a complete assembly kit right out of the box. No need to mix and match parts or worry about compatibility issues. Each component is precision-engineered to work together, enhancing your firearm's performance from the moment it's installed. Extended Arms for Enhanced Control and Safety Tyrant's safety selector arms extend 2mm past the OEM design, adding a more responsive engagement. This slight extension makes a huge difference in high-stress situations where every millisecond counts. The grooved serrations provide a non-slip surface, ensuring positive engagement even with gloved hands or in wet conditions. Compatible with 9mm & .380 Auto Calibers As an experienced shooter, versatility is key. This safety lever is compatible with a range of P365 models including the P365, P365X, P365XL, P365 Macro, and even Tyrant CNC P365 grip modules. Whether you're running 9mm or .380 Auto, this lever integrates flawlessly with your firearm, maintaining the reliability you expect from your Sig Sauer. It's a drop-in upgrade, ensuring a perfect fit without gunsmithing.

Attributes

Sicherheitshinweise für den SAFETY LEVER/SELECTOR für SIG SAUER P365

Einführung

Vielen Dank, dass du dich für den SAFETY LEVER/SELECTOR von Tyrant CNC für die SIG SAUER P365 entschieden hast. Dieses Produkt wurde entwickelt, um die Sicherheit und Ergonomie deiner Feuerwaffe zu verbessern. Bitte lies die folgenden Sicherheitshinweise sorgfältig durch, um eine sichere Nutzung zu gewährleisten.

Allgemeine Sicherheitsrichtlinien

- Stelle sicher, dass du das Produkt nur für den vorgesehenen Zweck verwendest.
- Lagere das Produkt an einem sicheren Ort, der für Kinder unzugänglich ist.
- Überprüfe regelmäßig den Zustand des Sicherheitshebels, um sicherzustellen, dass er ordnungsgemäß funktioniert.
- Halte dich über Rückrufaktionen und Sicherheitswarnungen auf dem Laufenden, indem du die EU Safety Gate Plattform besuchst.

Spezifische Sicherheitsvorkehrungen für die Nutzung

- Verwende die Waffe niemals, wenn du unter dem Einfluss von Alkohol oder Drogen stehst.
- Achte darauf, dass der Sicherheitshebel während des Gebrauchs in der richtigen Position ist.
- Trage immer geeignete Schutzausrüstung, wie z.B. Gehörschutz und Schutzbrille, beim Schießen.
- Vermeide es, die Waffe auf Personen oder Tiere zu richten, auch wenn sie sich in der Sicherheitsposition befindet.

Anweisungen für Installation und Nutzung

Installation

1. **Vorbereitung:** Stelle sicher, dass die Waffe entladen ist, bevor du mit der Installation beginnst.
2. **Montage:**
 - Entferne den alten Sicherheitswähler gemäß den Anweisungen des Herstellers.
 - Setze den neuen Sicherheitshebel von Tyrant CNC ein und achte darauf, dass alle Teile richtig ausgerichtet sind.
 - Verwende das mitgelieferte Montagekit, um sicherzustellen, dass alles ordnungsgemäß installiert ist.
3. **Überprüfung:** Teste den Sicherheitshebel, um sicherzustellen, dass er korrekt funktioniert, bevor du die Waffe wieder in Betrieb nimmst.

Nutzung

- Achte darauf, dass der Sicherheitshebel vor dem Schießen in der „Feuer“-Position ist.
- Stelle sicher, dass der Hebel bei jedem Gebrauch leicht zu erreichen ist.
- Überprüfe regelmäßig den Hebel auf Abnutzung oder Beschädigungen und tausche ihn bei Bedarf aus.

Entsorgungsanweisungen

- Entsorge das Produkt gemäß den örtlichen Vorschriften für Elektroschrott oder Metallabfälle.
- Stelle sicher, dass alle Teile sicher entsorgt werden, um Umweltschäden zu vermeiden.

Kontaktinformationen für weitere Unterstützung

Für weitere Unterstützung oder Fragen zu deinem Produkt, wende dich bitte an den Hersteller oder einen autorisierten Fachhändler. Achte darauf, dass alle Anfragen zur Produktsicherheit über die entsprechenden Kanäle erfolgen.

Bitte beachte, dass die Sicherheit deiner Waffe von deiner Verantwortung abhängt. Befolge diese Anweisungen sorgfältig und halte dich stets an die besten Praktiken für den sicheren Umgang mit Feuerwaffen.

Safety Instruction Guide for SAFETY LEVER/SELECTOR FOR SIG SAUER P365

Introduction

Thank you for choosing the Tyrant CNC Safety Lever/Selector for your Sig Sauer P365. This guide provides essential safety information, installation instructions, and usage tips to ensure that you can use this product safely and effectively. Please read this guide carefully before use.

General Safety Guidelines

To ensure safe use of the Safety Lever/Selector, please adhere to the following guidelines:

- Always treat your firearm as if it is loaded.
- Store your firearm and accessories securely and out of reach of children.
- Regularly inspect your firearm and the safety selector for any signs of wear or damage.
- Use the safety selector only as intended and follow all firearm safety rules.
- Ensure that you are familiar with the operation of your Sig Sauer P365 before using the safety lever.
- If you experience any issues with the safety selector, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

When using the Safety Lever/Selector, please consider the following precautions:

- Ensure that the firearm is pointed in a safe direction at all times.
- Do not engage or disengage the safety lever while the firearm is loaded.
- Always check that the safety selector is functioning correctly before use.
- Avoid using the safety lever in wet or slippery conditions unless absolutely necessary.
- If you are using gloves, ensure that your grip on the safety lever remains secure.

Instructions for Installation and Usage

Follow these steps for the proper installation and use of the Safety Lever/Selector:

Installation Instructions

1. **Prepare Your Workspace:** Ensure you have a clean, welllit area to work in. Gather all necessary tools.
2. **Unload Your Firearm:** Remove any ammunition from your Sig Sauer P365. Doublecheck to confirm it is unloaded.
3. **Remove the Factory Safety Selector:** Follow the manufacturer's instructions to safely remove the existing safety selector from your firearm.
4. **Install the Tyrant CNC Safety Lever:**
 - Align the safety lever with the designated slot on the firearm.
 - Insert the stainless steel safety plunger and spring included in the kit.
 - Secure the safety lever in place according to the manufacturer's instructions.
5. **Test the Safety Selector:** After installation, check the functionality of the safety lever to ensure it engages and disengages smoothly.

Usage Instructions

- To engage the safety, push the lever into the "Safe" position.
- To disengage the safety, push the lever into the "Fire" position.
- Always verify that the safety is in the desired position before handling the firearm.

Disposal Instructions

When the Safety Lever/Selector reaches the end of its life or if you decide to replace it, please follow these disposal instructions:

- Dispose of the product in accordance with local regulations for metal recycling.
- Do not dispose of the safety lever in regular household waste.
- Ensure that all components are securely packaged to prevent injury during disposal.

Contact Information for Further Support

For any questions or concerns regarding the Safety Lever/Selector, please reach out to the manufacturer or your local dealer for assistance. Ensure you have the product details ready for reference.

Conclusion

By following these safety guidelines and instructions, you can ensure the safe and effective use of the Tyrant CNC Safety Lever/Selector for your Sig Sauer P365. Always prioritize safety and responsible firearm handling practices. Thank you for your attention to these important safety measures.
