

ZERO M-SERIES SIZING DIES - ZERO M-SERIES 223 REMINGTON SIZING DIE W/ZERO SHELL HOLDER

The ZERO M-Series Sizing die is the culmination of years of testing, research, trial, error, frustration, and finally, discoveries. As Reloaders, Area 419 knew they needed a die to do certain things, but as the makers of the ZERO Reloading Press, Area 419 also learned a huge amount about what other dies did well or did poorly, and what customers were struggling with on a daily basis. With the ZERO M-Series Sizing Die, Area 419 produced a sizing die that is capable of producing the finest, match-grade ammunition, as well as being user-friendly to new and learning reloaders. Sizing brass doesn't have to be complicated. It doesn't have to require years of trial and error. It just needs equipment, made with the end-user in mind, designed with the understanding that a die is part of an ecosystem of parts. A press, a die, the brass, the rifle – they all have to work together and be designed with one another in mind. This is that. Introducing, the ZERO M-Series Sizing Die. KEY FEATURES Micrometer Adjustable Headspace/Shoulder Bump Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with Area 419's MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exact Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA All dies ship with an Area 419 ZERO Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a sizing die should be. Area 419 think you'll agree. NOTE: THIS IS A 1-1/4" DIE, AND REQUIRES A HYBRID OR 1-1/4" TURRET ON YOUR ZERO (OR OTHER PRESS). IT CANNOT BE USED WITH A 7/8" TURRET OR OTHER 7/8" PRESS.

Attributes

- Name: ZERO M-SERIES 223 REMINGTON SIZING DIE W/ZERO SHELL HOLDER

ZERO MSERIES SIZING DIES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the ZERO MSeries Sizing Die for your reloading needs. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read this document carefully before using the sizing die.

General Safety Guidelines

- Ensure that all safety instructions are followed to prevent accidents and injuries.
- Store the sizing die in a secure location, out of reach of children and pets.
- Always wear appropriate safety gear, including safety glasses and gloves, when using the sizing die.
- Be aware of your surroundings and ensure that your workspace is clean and welllit.
- Regularly inspect the sizing die for any signs of wear or damage. Do not use if damaged.
- Follow all local laws and regulations regarding ammunition reloading.

Specific Safety Precautions for Use

- Before using the sizing die, read the instructions thoroughly to understand its operation.
- Do not exceed the recommended load limits when using the sizing die.
- Ensure that the die is properly installed in the reloading press before use.
- Use only the recommended components with the sizing die, including brass casings and primers.
- Avoid distractions while using the sizing die to maintain focus on the task.
- If you experience any unusual resistance or binding, stop using the die immediately and inspect for issues.
- Keep your hands and other body parts clear of moving parts during operation.
- Always doublecheck the settings and adjustments before starting the sizing process.

Instructions for Installation and Usage

1. Installation

- Ensure your reloading press is securely mounted on a stable work surface.
- Select the appropriate turret or hybrid press that accommodates a 11/4" die.
- Insert the ZERO MSeries Sizing Die into the press, ensuring it is firmly seated.
- Tighten the die lock ring to secure the die in place.

2. Usage

- Set the micrometer adjustable headspace/shoulder bump according to your specifications.
- Insert a brass casing into the shell holder.
- Engage the press handle to begin the sizing process.
- After sizing, remove the case and inspect it for proper sizing and any signs of damage.
- Eject spent primers using the spring ejection feature.
- Repeat the process for additional cases as needed.

Disposal Instructions

- Dispose of any damaged or wornout components responsibly.
- Follow local regulations for the disposal of metal and other materials.
- Do not throw away the sizing die or any parts in regular trash if they are hazardous or can cause injury.

Contact Information for Further Support

For any inquiries regarding safety or product support, please reach out to your local distributor or the manufacturer directly. Ensure you have the product details available for efficient assistance.

Conclusion

By following these safety instructions, you ensure a safe and effective reloading experience with the ZERO MSeries Sizing Die. Always prioritize safety and stay informed about best practices in ammunition reloading. Thank you for your commitment to safety and quality in your reloading endeavors.
