

# ZERO S-SERIES SIZING DIES - ZERO S-SERIES 6MM CREEDMOOR SIZING DIE

ZERO S-SERIES SIZING DIES Following the resounding success of our M-Series Sizing Die, the mission became to take as many of those industry-leading features as possible and push them into a traditional 7/8" die, keeping the price point under \$300. Introducing the ZERO S-Series Sizing Die. KEY FEATURES Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with our MANDREL KIT) Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers Replaceable Steel Decap Pins Reamer Cut to Exacting Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA NOTE: This is for a Die-Only. These dies do not come with a shellholder. They are compatible with common shellholders from Redding, Hornady, RCBS, etc. They are also compatible with our ZERO Modular Shellholder System All dies ship with an Area 419 ZERO Universal Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a 7/8" sizing die should be.

# ZERO S SERIES SIZING DIES Consumer Safety Instruction Guide

## Introduction

Thank you for choosing the ZERO S Series Sizing Die. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this document carefully before using the die.

## General Safety Guidelines

- Ensure that the die is used only for its intended purpose as described in the product specifications.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the die.
- Keep the die and all related tools out of reach of children and vulnerable individuals.
- Regularly inspect the die for any signs of wear or damage. Do not use a damaged die.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Handle the die with care to avoid injury from sharp edges or components.
- Ensure that the die is properly secured in your reloading press before use.
- Do not exceed the recommended specifications for the die or the cartridges being used.
- Use only compatible shellholders as specified in the product description.
- Avoid using excessive force when resizing cartridges to prevent damage to the die or injury to yourself.
- Be aware of the potential for hot or spent materials during the reloading process. Use caution when handling.

## Instructions for Installation and Usage

### Installation

1. **Prepare Your Workspace:** Ensure your workspace is clean, welllit, and free from distractions.
2. **Select Compatible Shellholder:** Identify and prepare a shellholder that is compatible with the ZERO S Series Sizing Die.
3. **Install the Die:**
  - Secure the die into your reloading press by following the manufacturer's guidelines for installation.
  - Ensure the die is tightened properly to prevent movement during operation.

### Usage

1. **Check Equipment:** Before starting, ensure that your reloading press and die are clean and free from debris.
2. **Load the Cartridge:**
  - Insert a cartridge into the shellholder.
  - Ensure that the cartridge is seated correctly.
3. **Resize the Cartridge:**
  - Engage the press handle smoothly to resize the cartridge.
  - Avoid using excessive force; let the die do the work.
4. **Eject the Cartridge:**
  - After resizing, the spent primer will be ejected automatically.
  - Check the resized cartridge for any defects before proceeding with further reloading steps.

## Disposal Instructions

- When disposing of the die or any related components, follow local regulations for hazardous waste disposal.
- Do not dispose of the die in regular household waste. Check with local authorities for proper disposal methods.
