

ZERO S-SERIES SIZING DIES - ZERO S-SERIES 6.5X47MM SIZING DIE

ZERO S-SERIES SIZING DIES Following the resounding success of our M-Series Sizing Die, the mission became to take as many of those industry-leading features as possible and push them into a traditional 7/8" die, keeping the price point under \$300. Introducing the ZERO S-Series Sizing Die.

KEY FEATURES Precision Ground Expander Mandrels (all dies ship with a .002 neck tension mandrel, or add more increments with our MANDREL KIT)
Full-Length Neck to Extractor Sizing Spring Ejection for Spent Primers
Replaceable Steel Decap Pins Reamer Cut to Exact Dimensions for a TRUE Size (no more sticky bolt after the second firing) Hydraulic Shoulder Pressure Relief 100% Made in AMERICA NOTE: This is for a Die-Only. These dies do not come with a shellholder. They are compatible with common shellholders from Redding, Hornady, RCBS, etc. They are also compatible with our ZERO Modular Shellholder System All dies ship with an Area 419 ZERO Universal Die Ring, a spare decapping pin and necessary install/removal tools. After testing them all, and finding everything Area 419 like and didn't like, and working with thousands of customers and a variety of industry partners, they believe this is what a 7/8" sizing die should be.

Attributes

ZERO S SERIES SIZING DIES Safety Instruction Guide

Introduction

Thank you for choosing the ZERO S Series Sizing Die. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before using the die to understand its features and safety precautions.

General Safety Guidelines

- Ensure the die is used only for its intended purpose: sizing cartridges.
- Always wear appropriate safety gear, including safety glasses, when using the die.
- Keep the die and all related tools out of reach of children and unauthorized users.
- Inspect the die for any damage before each use. Do not use if damaged.
- Follow all local laws and regulations regarding the use of reloading equipment and ammunition.

Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the recommended specifications for the die. Overloading can lead to malfunctions or accidents.
- **Proper Handling:** Always handle the die with care. Avoid dropping or striking it against hard surfaces.
- **Use Compatible Shellholders:** Ensure that you use a compatible shellholder from reputable manufacturers such as Redding, Hornady, or RCBS.
- **Check for Obstructions:** Before sizing, ensure that the die is free of any debris or obstructions that could interfere with operation.
- **Hydraulic Pressure Relief:** Be aware of the hydraulic shoulder pressure relief feature. Understand its function to avoid unexpected ejection of spent primers.

Instructions for Installation and Usage

1. Installation:

- Secure the die in a reloading press that accommodates a 7/8" die.
- Ensure that the die is tightened properly to prevent movement during operation.
- Attach the appropriate shellholder compatible with the die.

2. Usage:

- Start by selecting the correct expander mandrel for your desired neck tension. The die ships with a .002 neck tension mandrel.
- Insert the cartridge case into the shellholder.
- Operate the press to size the cartridge. Ensure that the die is fully engaged with the case.
- After sizing, check the case for proper fit and dimensions.
- Eject the spent primer using the spring ejection feature.

3. Maintenance:

- Clean the die regularly to remove any residue or buildup.
- Replace the decap pin if it becomes damaged or worn.
- Store the die in a dry and safe location when not in use.

Disposal Instructions

- Dispose of the die and any components responsibly.
- Follow local regulations for the disposal of metal and reloading equipment.
- Do not discard in regular household waste.

Contact Information for Further Support

For any safety inquiries or support regarding the ZERO SSeries Sizing Die, please refer to the manufacturer's contact resources. Ensure you have the product details available for a more efficient response.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your ZERO SSeries Sizing Die. Always prioritize safety and compliance with local regulations during use. Thank you for your attention to these important instructions.
