

ARCALOCK DUAL CLAMP W/PICATINNY ATTACHMENT

ARCALOCK DUAL-CLAMP WITH PICATINNY Area 419 are big ARCALOCK people, and think it's the best solution for most people trying to shoot mid- to long-range. Area 419 also know that there are still a lot of rifles out there with Pic sections on the front end, or bipods that need to be used on both ARCA and Pic attachment points. Finally, they have a clamp that can do both – the ARCALOCK Dual Clamp. Precision milled from aerospace grade 6061-T6 aluminum and stainless steel, their Dual Clamp is versatile, adjustable, feature-rich, and 100% American Made Features: Adjustable tension to ensure a great fit on either mounting surface “On/Off” ARCALOCK switch for ideal fitment on either Area 419 ARCALOCK Rails or ARCA rails from other manufacturers Hardened steel pins and grabbers for exceptional picatinny lock-up ARMS 17S attachment for use with common bipods from Atlas, Thunderbeast, MDT, Magpul, Harris (with adapter) and more! This clamp is NOT directly compatible with the Two-Vets or any other tripod. NOTE: BECAUSE OF THE ADDITIONAL WIDTH OF THIS CLAMP, IT IS NOT COMPATIBLE WITH ALL AREA 419 ARCALOCK DEVICES. THIS INCLUDES, BUT IS NOT LIMITED TO: Garmin XERO Arms, RailChanger X.

ARCALOCK Dual Clamp Safety Instruction Guide

Introduction

Thank you for choosing the ARCALOCK Dual Clamp with Picatinny attachment. This product is designed to enhance your shooting experience by providing a versatile and secure mounting solution for your rifles and bipods. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose.
- Regularly inspect the clamp for signs of wear or damage before each use.
- Keep the product out of reach of children and vulnerable individuals.
- Do not modify the clamp or its components in any way.
- Always follow the manufacturer's instructions for installation and usage.
- In case of any malfunction, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- Ensure that the clamp is securely attached to the mounting surface before use.
- Adjust the tension of the clamp to ensure a snug fit without overtightening.
- Use the "On/Off" ARCALOCK switch to select the appropriate fitment for your mounting surface.
- Be aware that this clamp is NOT compatible with TwoVets or other tripods.
- Check compatibility with your specific bipod model before use.
- Avoid using the clamp in extreme weather conditions that may affect its performance.

Instructions for Installation and Usage

1. Installation

- Begin by selecting the appropriate mounting surface (Area 419 ARCALOCK Rails or Picatinny rails).
- Align the clamp with the mounting surface ensuring it is positioned correctly.
- Use the adjustable tension feature to secure the clamp. Do not overtighten.
- Engage the "On/Off" ARCALOCK switch to ensure proper fitment.

2. Usage

- Once installed, verify that the clamp is secure and stable before attaching any accessories.
- Regularly check the clamp during use for any signs of loosening or damage.
- When detaching the clamp, use the "On/Off" switch to release it safely.
- Store the clamp in a dry and safe location when not in use.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in household waste.
- Consider recycling materials where possible, such as aluminum and stainless steel.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the manufacturer's website or customer service for assistance.

By following these guidelines, you can ensure a safe and enjoyable experience with your ARCALOCK Dual

Clamp. Thank you for your attention to safety.
