TRIGGER FOR SMITH & WESSON M&P 1.0/2.0 Tyrant CNC Trigger for Smith & Wesson M&P Handguns - Precision Engineering Meets Functional Excellence

Introducing the top performing M&P Pistol Trigger: The Tyrant CNC made Smith & Wesson M&P trigger for both 1.0 and 2.0 Generation guns. Whether you're handling a full-size or compact model, Tyrant's M&P 1.0/2.0 trigger is engineered to enhance the functionality and efficiency of your firearm. A reduced take up and crisp break makes this trigger a must-have upgrade for all M&P handgun enthusiasts. Works with 9mm, 10mm, and .45 caliber models. Comprehensive Compatibility: This trigger is meticulously crafted to fit Smith & Wesson M&P 1.0/2.0 full-size and compact models. This universal compatibility ensures that no matter which M&P trigger you need, you'll experience the unparalleled benefits of the Tyrant CNC M&P Trigger. This includes both the first and second generations of the M&P series, providing a versatile solution for a wide range of users.

Innovative Design Features: Center Body Safety Blade Design: At the core of our trigger's design is the center body safety blade. This crucial feature maintains the inherent safety of your firearm while offering an unimpeded, smooth trigger pull. It is a testament to Tyrant's commitment to safety without compromising performance. Crisp 90-Degree Break: Their S&W M&P Trigger is characterized by its crisp 90-degree break, allowing for a sharp and precise trigger action. This feature is essential for shooters who demand accuracy and control in every shot. Straight Bladed Trigger: Their straight bladed trigger design is not just about aesthetics; it offers functional benefits including improved finger placement and enhanced trigger control. This design results in a more intuitive and responsive shooting experience. Technical Advantages: Utilizes Stock/OEM Components: Their trigger for the Smith & Wesson M&P is engineered to work seamlessly with your handgun's existing components. This ease of integration means no additional modifications are necessary, ensuring a straightforward installation process. Rapid Reset Mechanism: Designed for minimal split times between shots, their M&P trigger shoe's rapid reset feature is a game-changer for competitive shooters. This fast and short travel reset allows for quicker follow-up shots, giving you an edge in both competitive and tactical scenarios.

All-Aluminum Construction: Durability is a cornerstone of the Tyrant CNC made Smith and Wesson Trigger. Constructed entirely from high-grade aluminum, this trigger is built to withstand rigorous use, ensuring longevity and reliability.

Engineered for All Shooters: Balanced for Competitive and Hard Use: Whether you're a competitive shooter aiming for precision or a tactical user looking for reliability, their trigger is the perfect combination. It offers a balance between a competitive trigger's responsiveness and the ruggedness required for hard use.

Reduced Take-Up: Their trigger reduces take-up, or pre-travel, allowing for a more direct and responsive trigger pull. This reduction in take-up enhances shooting precision, providing a more immediate connection between your intention and the firearm's response.

Extended Benefits and Usage: Ergonomic Design for Comfort and Control: The ergonomic design of the Tyrant CNC Trigger contributes to a comfortable shooting experience. The trigger's shape and surface are optimized for consistent finger placement, reducing fatigue and improving control. Enhanced Aesthetics: Beyond performance, this trigger also adds a sleek, modern look to your M&P handgun. Its design complements the firearm, making it not only a functional upgrade but also an aesthetic enhancement.

Your Trusted Upgrade: At Tyrant CNC, they pride themselves on engineering excellence. Their triggers are the result of exhaustive research and development, aimed at delivering the best possible experience for M&P handgun owners. With the Tyrant CNC Trigger, you're not just upgrading a component; you're transforming your shooting experience.
