

MICROMETER ADJUST SCREW - LEE PRECISION HANDGUN MICROMETER ADJUST SCREW

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

MICROMETER ADJUST SCREW The micrometer adjust screw by Lee Precision replaces the original adjusting screw on any Lee bullet seating die. Infinitely adjustable, allows precision bullet seating depth. Easy to read laser engraved divisions represent .001" one thousandth of an inch. The integrated friction ring eliminates annoying clicks that prevent splitting thousandths. No clicks, just smooth adjustment. Reads just like a precision depth micrometer, record your setting and easily return to them for future use. The micrometer adjuster can be easily transferred to other Lee Bullet Seating Dies, but it is so economically priced, you will want one for every die. Handgun micrometer adjust screw works with all handgun cartridges that use this style bullet seating plug. Rifle micrometer adjust screw works with all cartridges that use this style bullet seating plug. Large Caliber rifle micrometer adjust screw works with all straight wall cartridges that use this style bullet seating plug

Safety Instruction Guide for Lee Precision Micrometer Adjust Screw

Introduction

Thank you for choosing the Lee Precision Micrometer Adjust Screw. This product is designed to enhance your bullet seating accuracy while ensuring safe and effective use. Please read this safety instruction guide carefully to understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the micrometer adjust screw is used only with compatible Lee bullet seating dies.
- Always wear appropriate safety gear, including eye protection, when working with reloading equipment.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the micrometer adjust screw for any signs of wear or damage before use.
- If you notice any defects or unusual behavior during operation, stop using the product immediately and seek assistance.

Specific Safety Precautions for Use

- **Avoid OverTightening:** Do not overtighten the micrometer adjust screw as this may cause damage to the die or the screw itself.
- **Proper Handling:** Handle the micrometer adjust screw with care to avoid dropping or damaging it.
- **Use in a WellLit Area:** Always use the product in a welllit area to ensure visibility of the laser engraved divisions.
- **Follow Manufacturer Instructions:** Adhere to all manufacturer instructions for installation and usage to prevent accidents or malfunctions.

Instructions for Installation and Usage

1. Installation:

- Ensure that the bullet seating die is clean and free of debris.
- Carefully remove the original adjusting screw from the Lee bullet seating die.
- Insert the Lee Precision Micrometer Adjust Screw into the die, ensuring it fits securely.
- Adjust the screw to the desired setting by turning it smoothly.
- Ensure that the friction ring is engaged to prevent unwanted adjustments.

2. Usage:

- Begin by setting the desired bullet seating depth using the laser engraved divisions.
- Make small adjustments as needed to achieve precise bullet seating.
- Record your settings for future reference.
- When finished, ensure the micrometer adjust screw is securely in place before storing the die.

Disposal Instructions

- Dispose of the micrometer adjust screw in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, check for local recycling programs that accept metal components.

Contact Information for Further Support

For any safety inquiries or support regarding the Lee Precision Micrometer Adjust Screw, please refer to the manufacturer's contact information provided with your product packaging or on their official website.

Please remember to regularly check for updates or recalls on the EU's Safety Gate platform to ensure continued safety while using your product. Thank you for prioritizing safety in your reloading practices.
