

MICROMETER ADJUST SCREW - RIFLE MICROMETER ADJUST SCREW

MICROMETER ADJUST SCREW The micrometer adjust screw by Lee Precision replaces the original adjusting screw on any Lee bullet seating die. Infinitely adjustable, allows precision bullet seating depth. Easy to read laser engraved divisions represent .001" one thousandth of an inch. The integrated friction ring eliminates annoying clicks that prevent splitting thousandths. No clicks, just smooth adjustment. Reads just like a precision depth micrometer, record your setting and easily return to them for future use. The micrometer adjuster can be easily transferred to other Lee Bullet Seating Dies, but it is so economically priced, you will want one for every die. Handgun micrometer adjust screw works with all handgun cartridges that use this style bullet seating plug. Rifle micrometer adjust screw works with all cartridges that use this style bullet seating plug. Large Caliber rifle micrometer adjust screw works with all straight wall cartridges that use this style bullet seating plug

Safety Instruction Guide for MICROMETER ADJUST SCREW

Introduction

Thank you for choosing the MICROMETER ADJUST SCREW by Lee Precision. This product is designed to enhance your reloading experience by providing precise bullet seating adjustments. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the micrometer adjust screw in accordance with the manufacturer's instructions.
- Keep the micrometer adjust screw out of reach of children and vulnerable individuals.
- Inspect the micrometer adjust screw before each use for any signs of damage or wear.
- Do not use the micrometer adjust screw if it appears damaged or if any components are missing.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the micrometer adjust screw is compatible with your Lee bullet seating die.
- Use the micrometer adjust screw only for its intended purpose—bullet seating depth adjustment.
- Avoid applying excessive force when adjusting the screw to prevent damage.
- Always wear appropriate eye protection when reloading ammunition.
- Do not attempt to modify or disassemble the micrometer adjust screw.

Instructions for Installation and Usage

1. Installation:

- Remove the original adjusting screw from your Lee bullet seating die.
- Carefully install the micrometer adjust screw by threading it into the die until securely fitted.
- Ensure that the screw is properly aligned and does not obstruct any moving parts.

2. Usage:

- To adjust the bullet seating depth, turn the micrometer adjust screw clockwise to decrease depth and counterclockwise to increase depth.
- Use the laser engraved divisions to read the adjustment accurately, noting that each division represents .001" (one thousandth of an inch).
- Record your settings for future reference to ensure consistency in bullet seating.
- If you encounter resistance while adjusting, check for any obstructions or misalignments.

Disposal Instructions

- Dispose of the micrometer adjust screw in accordance with local regulations for electronic or mechanical waste.
- Do not dispose of the micrometer adjust screw in regular household waste.
- If in doubt, contact your local waste disposal authority for guidance on proper disposal methods.

Contact Information for Further Support
