

MICROMETER ADJUST SCREW - LEE PRECISION RIFLE MICROMETER ADJUST SCREW

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

MICROMETER ADJUST SCREW The micrometer adjust screw by Lee Precision replaces the original adjusting screw on any Lee bullet seating die. Infinitely adjustable, allows precision bullet seating depth. Easy to read laser engraved divisions represent .001" one thousandth of an inch. The integrated friction ring eliminates annoying clicks that prevent splitting thousandths. No clicks, just smooth adjustment. Reads just like a precision depth micrometer, record your setting and easily return to them for future use. The micrometer adjuster can be easily transferred to other Lee Bullet Seating Dies, but it is so economically priced, you will want one for every die. Handgun micrometer adjust screw works with all handgun cartridges that use this style bullet seating plug. Rifle micrometer adjust screw works with all cartridges that use this style bullet seating plug. Large Caliber rifle micrometer adjust screw works with all straight wall cartridges that use this style bullet seating plug

Safety Instruction Guide for MICROMETER ADJUST SCREW by Lee Precision

Introduction

Thank you for choosing the MICROMETER ADJUST SCREW by Lee Precision. This product is designed to enhance your reloading experience by providing precise bullet seating depth adjustments. To ensure your safety and the effective use of this product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always read and understand the instructions before using the product.
- Keep this guide accessible for future reference.
- Inspect the product regularly for any signs of damage or wear.
- Store the product in a safe, dry place away from children and pets.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the micrometer adjust screw only with Lee bullet seating dies.
- Ensure that the micrometer adjust screw is securely attached before making adjustments.
- Avoid applying excessive force when adjusting the screw to prevent damage.
- Do not attempt to modify or disassemble the micrometer adjust screw.
- Keep hands and tools clear of moving parts during adjustment.
- Always wear appropriate safety gear, such as safety glasses, when reloading.
- Ensure that the workspace is clean and free from distractions.

Instructions for Installation and Usage

1. Installation

- Ensure the bullet seating die is clean and free from debris.
- Remove the original adjusting screw from the Lee bullet seating die.
- Carefully insert the micrometer adjust screw into the die.
- Tighten the screw securely, ensuring it is fitted correctly.

2. Usage

- To adjust the bullet seating depth, turn the micrometer adjust screw clockwise to decrease depth or counterclockwise to increase depth.
- Use the laser engraved divisions to monitor adjustments accurately.
- Record your settings for future reference.
- When switching dies, the micrometer adjust screw can be easily transferred to another Lee bullet seating die.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- If the product is damaged beyond use, contact local recycling centers for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the MICROMETER ADJUST SCREW, please consult the manufacturer or visit their official website for support resources.

Thank you for prioritizing safety while using the MICROMETER ADJUST SCREW. Enjoy your reloading experience!
