

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT - EHG RG9 GRIP FRAME FOR RUGER RXM SUB-COMPACT BLACK

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT

Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

EHG SG9 Grip Frame Safety Instructions

Introduction

Thank you for choosing the EHG SG9 Grip Frame for the Ruger RXM SubCompact. This product is designed to enhance your firearm experience while ensuring safety and compliance with European Union regulations. Please read this safety instruction guide carefully to understand how to use, install, and dispose of the product safely.

General Safety Guidelines

- Always treat the firearm as if it is loaded.
- Ensure the firearm is pointed in a safe direction at all times.
- Keep your finger off the trigger until you are ready to shoot.
- Store the grip frame and firearm in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the grip frame and firearm for any signs of damage or wear.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the EHG RG9 Grip Frame is compatible with your Ruger RXM Pistol. This grip frame is specifically designed for this model and may not fit other firearms.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting that could lead to accidents.
- **Handling:** Use caution when handling the firearm. The grip frame has features designed for improved control, but safe handling practices are essential.
- **Modifications:** Do not modify the grip frame or firearm in any way that could compromise safety or functionality.
- **Children:** Keep the grip frame and firearm out of reach of children. Ensure that children do not handle firearms without adult supervision.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Remove the existing grip frame from your Ruger RXM Pistol according to the manufacturer's instructions.
- Align the EHG RG9 Grip Frame with the firearm's frame.
- Securely attach the grip frame using the provided components, ensuring all parts are fitted correctly.
- Verify that the magazine release is functioning properly and that the grip frame is securely attached.

2. Usage:

- Once installed, ensure the grip frame is comfortable and offers a secure hold.
- Practice safe handling techniques at all times.
- Use the grip's features, such as the TSP texture and undercut trigger guard, to improve control and comfort while shooting.

Disposal Instructions

- Dispose of the EHG RG9 Grip Frame in accordance with local regulations for plastic waste.
- If the product is damaged or no longer usable, do not attempt to repair it. Instead, dispose of it responsibly.
- Check with local waste management authorities for specific disposal instructions to ensure environmental safety.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product features, please refer to the manufacturer's website or customer service resources. It is essential to have access to support for any concerns you may have about the product.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with the EHG SG9 Grip Frame for the Ruger RXM SubCompact. Stay safe and responsible.
