MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT
Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

EHG SG9 Grip Frame Safety Instruction Guide

Introduction

Thank you for choosing the MAGPUL® EHG™ SG9™ Grip Frame for your Ruger RXM™ SubCompact. This guide provides essential safety instructions to ensure the safe use and maintenance of your product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- **Product Safety:** Always ensure the safe use of the EHG RG9 Grip Frame. Familiarize yourself with the product features and potential risks.
- **Enhanced Recalls:** Stay informed about any recalls or safety notices related to this product. Follow any instructions provided for returns or replacements.
- **Online Shopping:** If purchased online, ensure that the platform complies with safety regulations and provides the same protections as physical stores.
- **Special Consumer Focus:** Keep the product away from children and vulnerable individuals. Ensure that it is used only by responsible adults familiar with firearm safety.
- **EU Contact Point:** For safety inquiries or concerns, refer to the manufacturer's contact information provided with the product.
- **Rapid Alerts:** Regularly check the EU Safety Gate platform for updates on product safety and recall information.

Specific Safety Precautions for Use

- **Familiarize Yourself with Firearm Safety:** Always follow basic firearm safety rules, including treating every firearm as if it is loaded, keeping the muzzle pointed in a safe direction, and ensuring the safety is engaged when not in use.
- **Proper Handling:** Use the grip frame only with the Ruger RXM™ Pistol. Ensure that all components are securely attached before use.
- **Check for Damage:** Before installation, inspect the grip frame for any signs of damage or wear. Do not use if damaged.
- **Use Appropriate Accessories:** Only use compatible magazines and accessories as specified in the product documentation.
- **Avoid Modifications:** Do not modify the grip frame or its components. Modifications can compromise safety and performance.
- **Store Safely:** When not in use, store the firearm and grip frame in a secure location, away from unauthorized access.

Instructions for Installation and Usage

1. Installation:

- Ensure that the Ruger RXM™ Pistol is unloaded and pointed in a safe direction.
- Remove the factory grip frame according to the manufacturer's instructions.
- Align the MAGPUL® EHG™ SG9™ Grip Frame with the firearm's frame.
- Securely attach the grip frame, ensuring that all components are properly fitted.
- Install the magazine release and any other necessary components as per the instructions provided.

2. Usage:

- Grip the firearm firmly using the EHG RG9 Grip to maintain control during operation.
- Utilize the TSP texture for improved grip, especially in adverse conditions.
- Regularly check the grip frame and all components for secure attachment during use.

Disposal Instructions

- **Disposal of the Product:** When the EHG SG9 Grip Frame reaches the end of its useful life, dispose of it in accordance with local regulations for plastic and polymer materials.
- **Environmental Considerations:** Do not dispose of the product in regular household waste. Instead, take it to a designated recycling facility that accepts polymer materials.

Contact Information for Further Support

For any questions or concerns regarding the EHG SG9 Grip Frame, please refer to the contact information provided with the product packaging or visit the manufacturer's website for additional resources and support.

By following these guidelines, you contribute to a safer environment for yourself and others while enjoying the benefits of your MAGPUL® EHG™ SG9™ Grip Frame. Thank you for your attention to safety.
