

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT - EHG RG9 GRIP FRAME FOR RUGER RXM SUB-COMPACT FDE

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT

Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

- Name: EHG RG9 GRIP FRAME FOR RUGER RXM SUB-COMPACT FDE
- Manufacturer: MAGPUL
- Product no.: 430113691
- Mfr. No.: MAG1516-FDE
- Cartridge: 9 mm Luger
- Finish: Flat Dark Earth

- Make: Ruger
- Model: RXM Compact
- Style: Stripped

EHG SG9 Grip Frame for Ruger RXM SubCompact Safety Instruction Guide

Introduction

Thank you for choosing the EHG SG9 Grip Frame for Ruger RXM SubCompact. This guide provides important safety information, usage instructions, and contact details for support. Please read this guide thoroughly before using the product to ensure safe and effective operation.

General Safety Guidelines

To ensure the safe use of the EHG SG9 Grip Frame, please follow these guidelines:

- Always treat the firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the firearm and components in a secure location, out of reach of children and unauthorized users.
- Inspect the grip frame for any damage or wear before each use. Do not use if damaged.
- Follow all local laws and regulations regarding firearm ownership and usage.
- Use only compatible accessories and components as specified in this guide.

Specific Safety Precautions for Use

When using the EHG SG9 Grip Frame, please observe the following precautions:

- Ensure that the firearm is unloaded before installing or removing the grip frame.
- Use caution when handling the magazine release to avoid accidental discharge.
- Do not modify the grip frame or the firearm in any way that could affect safety or performance.
- Be aware of your surroundings and ensure a safe shooting environment.
- Always wear appropriate eye and ear protection when using the firearm.

Instructions for Installation and Usage

Follow these steps for proper installation and usage of the EHG SG9 Grip Frame:

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the factory grip frame by following the manufacturer's instructions.
- Align the EHG SG9 Grip Frame with the firearm's frame.
- Secure the grip frame in place using the provided hardware, ensuring all screws are tightened properly.
- Verify that the magazine release functions correctly.

2. Usage:

- Hold the firearm firmly with the EHG SG9 Grip Frame for optimal control.
- Familiarize yourself with the grip's features, including the TSP texture and undercut trigger guard.
- Ensure that your fingers are clear of the trigger and magazine release when handling the firearm.

Disposal Instructions

When disposing of the EHG SG9 Grip Frame, please follow these guidelines:

- Do not dispose of the grip frame in regular household waste.
- Check local regulations for proper disposal methods for polymer materials.
- Consider recycling options if available in your area to minimize environmental impact.

Contact Information for Further Support

For any inquiries or safety concerns regarding the EHG SG9 Grip Frame, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website for additional support resources.

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your EHG SG9 Grip Frame for Ruger RXM SubCompact. Thank you for your attention to safety.
