MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT

Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

**FEATURES** TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

## Attributes

- Name: [MAGPUL EHG RG9 GRIP FRAME FOR RUGER RXM SUB-COMPACT FDE](#)
- Manufacturer: [MAGPUL](#)

- Product no.: 430113691

# Safety Instruction Guide for the MAGPUL EHG SG9 Grip Frame

## Introduction

Thank you for choosing the MAGPUL EHG SG9 Grip Frame for your Ruger RXM SubCompact pistol. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before installation and use.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the MAGPUL EHG SG9 Grip Frame in accordance with the guidelines provided. Always follow the manufacturer's instructions.
- **Enhanced Recalls:** Stay informed about any recalls related to this product. If you receive a recall notice, follow the instructions provided for a remedy.
- **Online Shopping Protections:** If purchased online, ensure that the retailer complies with safety requirements for online products.
- **Special Consumer Focus:** Extra caution should be taken if the product is used around vulnerable groups, including children.
- **EU Contact Point:** For any safety inquiries, please refer to the designated EU contact point.
- **Rapid Alerts:** Keep updated on any safety alerts regarding this product via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Installation:** Ensure that the grip frame is installed correctly to avoid any potential hazards during use.
- **Handling:** Always handle your firearm with care. Treat every gun as if it is loaded.
- **Compatibility:** The MAGPUL EHG SG9 Grip is specifically designed for the Ruger RXM Pistol. Do not use it with any other firearm.
- **Maintenance:** Regularly inspect the grip frame for any signs of wear or damage. Replace it if necessary.
- **Storage:** Store the firearm in a secure location, out of reach of children and unauthorized users.

## Instructions for Installation and Usage

### 1. Installation Instructions:

- Ensure the firearm is unloaded before beginning the installation.
- Remove the factory grip frame from the Ruger RXM by following the manufacturer's disassembly instructions.
- Align the MAGPUL EHG SG9 Grip Frame with the firearm's frame.
- Secure the grip frame in place using the provided hardware, ensuring it is tightly fitted.
- Reassemble the firearm according to the manufacturer's instructions.

### 2. Usage Instructions:

- Familiarize yourself with the grip's features, including the TSP texture for improved grip and the magazine release scallop for efficient magazine changes.
- Practice safe handling techniques, including keeping your finger off the trigger until you are ready to shoot.
- Utilize the universal rail for mounting accessories such as lights and lasers, ensuring they are securely attached.

## **Disposal Instructions**

- Dispose of the MAGPUL EHG SG9 Grip Frame in accordance with local regulations regarding plastic waste.
- If the grip frame is damaged or no longer in use, ensure it is disposed of in a manner that prevents accidental use.

## **Contact Information for Further Support**

For any questions or concerns regarding the MAGPUL EHG SG9 Grip Frame, please consult the manufacturer's website or contact customer support through the designated EU contact point.

By following these safety instructions and guidelines, you can ensure the safe and effective use of the MAGPUL EHG SG9 Grip Frame for your Ruger RXM SubCompact pistol. Thank you for prioritizing safety.
