

EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT - EHG RG9 GRIP FRAME FOR RUGER RXM SUB-COMPACT ODG

MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT

Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

Safety Instruction Guide for EHG™ SG9™ Grip Frame for Ruger RXM™ SubCompact

Introduction

Thank you for choosing the EHG™ SG9™ Grip Frame for your Ruger RXM™ SubCompact. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before installation and use.

General Safety Guidelines

- **Product Safety:** Always ensure the safe use of the grip frame. This product is designed for the Ruger RXM™ SubCompact and should only be used with this firearm.
- **Enhanced Recalls:** Be aware that if any safety issues arise, recall notices will be provided. Stay informed about product recalls through official channels.
- **Online Shopping Safety:** Ensure that you purchase this product from authorized retailers to guarantee compliance with safety standards.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For any safety inquiries, refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Stay updated on any safety alerts regarding this product through the EU Safety Gate platform.

Specific Safety Precautions for Use

- **Compatibility:** Ensure that the EHG™ SG9™ Grip Frame is compatible with your Ruger RXM™ SubCompact. This grip frame is designed specifically for this model.
- **Inspection:** Before each use, inspect the grip frame for any signs of damage or wear. Do not use if damaged.
- **Installation:** Follow the installation instructions carefully to ensure proper fit and function.
- **Handling:** Always handle the firearm safely and responsibly. Keep the firearm pointed in a safe direction at all times.
- **Magazine Release:** Be cautious when using the magazine release. Ensure that your fingers are clear of the magazine well to prevent injury.
- **Training:** If you are unfamiliar with firearms, seek proper training from a qualified instructor before using this product.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded before beginning installation.
- Remove the factory grip frame from your Ruger RXM™ SubCompact.
- Align the EHG™ SG9™ Grip Frame with the firearm's frame.
- Secure the grip frame in place according to the manufacturer's instructions.
- Reinstall the magazine release and ensure it functions properly.

2. Usage:

- Grip the firearm firmly using the EHG™ SG9™ Grip Frame.
- Utilize the textured surface for improved control and handling.
- When operating the firearm, maintain proper finger placement away from the trigger until ready to shoot.

- After use, ensure the firearm is secured and stored safely.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the grip frame or any components become unusable, dispose of them responsibly. Check local guidelines for disposal of polymer materials.

Contact Information for Further Support

For any questions or concerns regarding the EHG™ SG9™ Grip Frame, please refer to the contact information provided by your retailer or the manufacturer. It is essential to have access to support for any safety inquiries.

By following these safety instructions, you can ensure a safe and enjoyable experience with your EHG™ SG9™ Grip Frame for Ruger RXM™ SubCompact. Always prioritize safety and responsible firearm handling.
