MAGPUL® EHG™ SG9™ GRIP FRAME FOR RUGER RXM™ SUB-COMPACT
Ruger and Magpul have over 100 years of combined experience designing and producing innovative, high-quality products in the firearms space. Magpul recently created a new grip - the EHG RG9 - for the new Ruger RXM, a 9mm NATO pistol made in the USA at Ruger's factory in Prescott, AZ. The RXM is designed for personalization and customization for your self-defense needs. Want a different look or size? The Ruger Fire Control Insert (FCI) is compatible with Magpul EHG RG9 Grips available in Black, Flat Dark Earth, Stealth Gray, and Olive Drab Green in the OEM 15-round Compact size as well as the new 12-round Sub-Compact and 17-round Full-Size. The EHG RG9 Grip packs many valuable features into its comfortable design. It includes a ¾-scale Magpul Trapezoidal Surface Projection (TSP) texture on the front strap, back strap, side panels, and forward index pads, providing improved tactile grip and weapons control where you need it most. To improve ergonomics, the grip also features an undercut trigger guard for comfortable handling of the gun. The magazine release scallop provides a recessed but easily accessed space for the magazine release, which has a textured, ridged surface to support more efficient magazine changes. The front of the grip features a universal rail for mounting lights and lasers to further enhance the pistol's utility. Of course, the EHG RG9 uses a strong, durable polymer like other Magpul products. The RXM Pistol ships from Ruger with the MAG1436 Compact EHG RG9 Grip plus two PMAG 15 GL9 15-round mags (the capacity-compliant version of the RXM ships with two 10-round GL9 PMAGs). This Sub-Compact Grip replaces the factory one for those who want an even more condensed profile. It is compatible with the MAG674 Magpul PMAG® 12 GL9® for the G26 as well as longer magazines with some protrusion from the bottom of the grip. The EHG RG9 Grip also comes assembled with a Ruger-manufactured magazine release, release spring, slide-lock spring, and takedown-pin spring, and functions with most aftermarket Gen3 parts, so if any of these pieces need to be replaced or upgraded, spare parts are readily available. Made in the USA.

FEATURES TSP TEXTURE Magpul's proprietary TSP texturing on the front and backstraps, side panels, and forward index pads of the RXM EHG provide solid purchase on the grip in all conditions **OPTIMIZED FOR CONCEALMENT** Shorter grip length for improved CCW ability Easily accessed magazine release The RXM EHG integrates perfectly with the PMAG 12 GL9 for the G26 GEN3 **COMPATIBILITY** The RXM EHG is compatible with most Gen3 aftermarket parts, such as slide-stop and mag release components **SPECS** Platform: Ruger® RXM™ Grip Angle: 20.5 deg. Compatibility: The Magpul EHG RG9 Grips only fit the Ruger RXM Pistol. Compatible with other Gen3 magazine release and slide stop components. **NOTE:** The universal rail is not the same as a 1913 Picatinny rail; different attachment components may be necessary.

Attributes

Safety Instruction Guide for EHG SG9 Grip Frame for Ruger RXM

Introduction

Thank you for choosing the EHG SG9 Grip Frame for your Ruger RXM SubCompact. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual carefully before installation and usage.

General Safety Guidelines

- **Product Safety:** Ensure that all nonfood products, including the EHG SG9 Grip Frame, are used safely and responsibly. This product is designed for use with the Ruger RXM Pistol only.
- **Enhanced Recalls:** In the event of a safety recall, you will be notified through standardized recall notices. Please follow any instructions provided.
- **Online Shopping:** If purchased online, ensure that the retailer complies with safety requirements similar to those of physical stores.
- **Special Consumer Focus:** Extra care should be taken when this product is used around vulnerable groups, particularly children. Keep all firearm accessories out of reach of children.
- **EU Contact Point:** For safety inquiries, please refer to your retailer or manufacturer for contact information.
- **Rapid Alerts:** Stay informed about product safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Compatibility:** Ensure the EHG RG9 Grip is only installed on the Ruger RXM Pistol. Using it with incompatible models may lead to malfunctions.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which could affect the performance and safety of your firearm.
- **Handling:** Always treat firearms as if they are loaded. Keep the muzzle pointed in a safe direction at all times.
- **Storage:** Store the firearm in a secure location, away from unauthorized users, particularly children.
- **Inspection:** Regularly inspect the grip frame for any signs of wear or damage. Replace if necessary.

Instructions for Installation and Usage

1. Installation:

- Ensure the Ruger RXM is unloaded before beginning any installation.
- Remove the factory grip by following the manufacturer's instructions.
- Align the EHG RG9 Grip with the firearm's frame.
- Securely attach the grip using the provided hardware, ensuring it is firmly in place.
- Check that the magazine release and trigger guard are functioning correctly after installation.

2. Usage:

- Familiarize yourself with the grip's features, including the TSP texture for improved grip and the magazine release scallop.
- Practice safe handling techniques, including keeping your finger off the trigger until ready to fire.
- Ensure that the grip is comfortable and allows for proper control during use.

Disposal Instructions

- Dispose of the EHG SG9 Grip Frame in accordance with local regulations regarding plastic and firearm accessories.
- Do not dispose of in regular household waste. Check for recycling options or designated disposal sites for firearm accessories.

Contact Information for Further Support

For any questions or concerns regarding the EHG SG9 Grip Frame, please refer to the retailer or manufacturer for assistance.

By adhering to these safety instructions, you can ensure a safer experience while using your EHG SG9 Grip Frame with the Ruger RXM. Always prioritize safety and responsible firearm handling.
