

DAKA RANGE BAGS - DAKA RANGE BAG 40L LARGE BLACK

MAGPUL DAKA RANGE BAGS The new DAKA Range Bag line is designed and built to be the last range bag you'll ever need. Constructed from our proprietary DAKA Grit (600D TPU-coated nylon) and DAKA Dura (840D TPU-coated nylon) fabrics that include RF-welded seams and dual YKK Aquaguard® zippers, the DAKA Range Bag can handle the weather, dirt, and rough treatment of your next range trip. Their Large Range Bag has a volume of 40 liters, comprised of a main compartment to house most of your range gear, plus two side pockets sized to fit ear pro, ammo, eye pro, or other range necessities. On the bag's external wall under the main compartment lid, there's a zippered, mesh slip pocket as well as four (4) stretch woven pockets; two hold up to an AR-10 or a short-action AICS PMAG®, and two smaller pockets that can each store a GLOCK® PMAG or an AMAG®. On the backside of the magazine wall is a document pocket for any manuals, NFA paperwork, or targets. Within the main compartment of the bag are two sets of four elastic loops to hold up to eight (8) magazines, a stretch, mesh- gusseted pocket, and a loop-lined wall to attach accessories that use a hook-and-loop style of attachment. Their Small Range Bag has a volume of 20 liters, comprised of a main compartment to house most of your range gear, plus a side pocket sized to fit ear pro, eye pro, ammo or other range necessities. On the bag's external wall under the main compartment lid, there's a zippered, mesh slip pocket as well as four (4) stretch woven pockets; two hold up to an AR-10 or a short-action AICS PMAG®, and two smaller pockets that can each store a GLOCK® PMAG or an AMAG®. On the backside of the magazine wall is a document pocket for any manuals, NFA paperwork, or targets. Within the main compartment of the bag are two sets of four elastic loops to hold up to eight (8) magazines, a stretch, mesh- gusseted pocket, and a loop-lined wall to attach accessories that use a hook-and-loop style of attachment. To protect all your gear, the DAKA Range Bag is built upon a structured Hypalon® bottom that also includes a layer of compressed foam for extra durability and support. For easy carrying, there are stowable sling mounting plates on each side of the bag to attach a QD, Paraclip™, MASH Hook, or other similar connecting device to support carrying the bag with a sling over the shoulder when the Range Bag is loaded with gear. The Range Bag also includes a pair of handles attached with a die-cut DAKA patch for extra strength when the bag is full of equipment. There's also an exterior-mounted, RF-welded DAKA ID card slot and a dot matrix grid for keeping tabs on your Range Bag. DAKA Range Bag Safety Instruction Guide

Introduction

Thank you for choosing the DAKA Range Bag. This safety instruction guide provides essential information to ensure the safe use of your bag. It complies with the EU General Product Safety Regulation (GPSR) to help you understand how to use the product safely and effectively.

General Safety Guidelines

- Ensure that the bag is used solely for its intended purpose, which is to carry range gear and accessories.
- Regularly inspect the bag for any signs of wear or damage. Do not use the bag if it is damaged.
- Keep the bag out of reach of children when not in use to prevent accidents.
- Avoid overloading the bag beyond its specified weight limit to maintain structural integrity and safety.
- Be cautious when using the bag in adverse weather conditions. While the bag is designed to handle various elements, prolonged exposure to extreme conditions may affect its durability.

Specific Safety Precautions for Use

- When carrying the bag, ensure that the sling or handles are securely attached to avoid accidental drops.
- Use the stowable sling mounting plates only with compatible connecting devices to prevent detachment during use.
- Do not place heavy or sharp objects in the side pockets to avoid punctures or tears in the fabric.
- Ensure that magazines are stored securely in the elastic loops to prevent them from falling out during transport.
- If using the bag for the transportation of firearms or ammunition, ensure compliance with all local laws and regulations.

Instructions for Installation and Usage

• Packing the Bag:

- Open the main compartment and arrange your gear in a manner that balances the weight.
- Place heavier items at the bottom of the bag to maintain stability.
- Utilize the side pockets for smaller items like ear pro and eye pro.

• Using the Sling:

- Attach the sling to the stowable sling mounting plates on either side of the bag.
- Adjust the sling to a comfortable length for carrying over your shoulder.

• Accessing Contents:

- To access items in the main compartment, unzip the dual YKK Aquaguard zippers fully.
- For quick access to smaller items, use the zippered mesh slip pocket located on the external wall of the bag.

• Cleaning and Maintenance:

- Wipe the exterior with a damp cloth to remove dirt and debris.
- Avoid using harsh chemicals or abrasive materials that may damage the bag's fabric.

• Storage:

- When not in use, store the bag in a cool, dry place away from direct sunlight to prevent fading and

deterioration.

Disposal Instructions

- When the DAKA Range Bag has reached the end of its life, dispose of it responsibly.
- Check local regulations for proper disposal methods for nylon and other synthetic materials.
- If the bag is damaged and cannot be repaired, consider recycling the materials if possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding the DAKA Range Bag, please refer to the EUbased contact listed on the product packaging or visit the manufacturer's website for additional support and information.

Thank you for following these safety guidelines to ensure your experience with the DAKA Range Bag is safe and enjoyable.
